THE CYCLES.

The year 1865 is the first after leap-year, and the latter part of the 89th, and beginning of the 90th year of American Independence; the 6,578th of the Julian Period; the 7,378-4th of the Byzantine era; the 5,625-6th of the Jewish era; the 2,618th of Rome; the 2,612th of the Nabonassar; the 2,641st of the Olympiads; the 2,177th of the Grecian era of the Seleucidae; the 1,581st of Diocletian; the 1,282d of Mohammed, which begins 27th of May. Dominical Letter, A; Epact, 8; Golden Number, 4; Solar Cycle, 26; Roman Indiction, 8; Dionysian Period, 194. The Jewish year 5,626 begins Sept. 21, 1865.

ECLIPSES FOR THE YEAR 1865.

I. There will be a *Partial Eclipse* of the Moon, April 10th, in the evening, or early in the morning of April 11th, visible. Size $2\frac{1}{2}$ digits, or about one fifth of the Moon's diameter, being upon the northern limb as shown in the engraving at the right. For the times at various places, see the table on next page.

II. There will be a Total Solar Eclipse, April 25th, invisible in North America, but visible in most of South America and Africa.

III. There will be a *Partial Eclipse* of the Moon, October 4th, in the evening, visible. The Moon will *rise* in the United States east of the Mississippi River partially eclipsed, and in the Pacific States it will be invisible. Size $4\frac{1}{2}$ digits, or about one third of the Moon's diameter. The beginning of the eclipse occurs before the Moon rises, and at all places west of the meridian of Buffalo, the *middle* of the eclipse will also occur before the Moon rises. The obscuration will be upon the southern limb, being, when largest, as shown in the annexed cut.

IV. There will be an Annular Eclipse of the Sun, October 19th, in the morning, visible throughout the United States as a *Partial Eclipse*, except along the line of the Central Eclipse shown on the map, where the annular or ring-like appearance will be seen. The track of central eclipse begins near Nisqually in Washington Territory, on Puget's Sound, and passes south-easterly through Montana, Idaho, Kansas, Southern Missouri, Western Tennessee, and diagonally through Georgia to Savannah, and thence across the Atlantic and into Africa. Along this route there will be seen a *ring* of light around the margin of the Sun, as seen in the engraving at the right. The ring will be half a digit wide, and the eclipse 11 digits in size on that route. For the *partial* eclipse, the time, and size, for many places, see the following table:

A TABLE OF THE SOLAR ECLIPSE, OCTOBER 19, 1865.

TRUE TIME.—Two kinds of time are used in Almanacs; *clock* or *mean-time* in some, and *apparent* or *sun-time* in others. *Clock-time* is always *right*, while *Sun-time* *varies* every day. People generally suppose it is twelve o'clock when the sun is due south, or at a properly made noon-mark. But this is a mistake, the sun is seldom on the meridian at *twelve o'clock*; indeed this is the case only on four days of the year; namely, April 15, June 15, Sept. 1, and Dec. 24. In this Almanac, as in most other Almanacs, the time used is *clock-time*. The time when the sun is on the meridian or at the noon-mark, is also given to the

nearest second, for the 1st, 7th, 13th, 19th and 25th days of each month, at the right hand of the top of each calendar page. This affords a ready means of obtaining correct time and for setting a clock by using a noon-mark.

Old-fashioned Almanacs, which use *apparent* time, give the rising and setting of the sun's *center* and make no allowance for the effect of refraction of the sun's rays by the atmosphere. The more modern and improved Almanacs, which use *clock-time*, give the rising and setting of the sun's *upper limb*, and duly allow for refraction, bringing the time to a degree near perfection.

NEW AND VALUABLE TIDE TABLE.

To find the time of high-water at any of the places named in the following table, add the indicated in the first column of figures to the time of "Moon South," found in the pages. EXAMPLE: Required the time of high-water at New Haven for January 27th at the For the 27th, Moon South, at 0h. 26m. in the afternoon, which added to 11h. 16m. gives 1 receiver of the same evening for high-water. On the 29th, Moon South at 2h. 17m. eve., which sum of before, gives 13h. 33m., or 1 o'clock 33m. in the morning of the 30th, for high-water.

The "Establishment of the Port," in the above table, is the mean interval between the time of the Moon's meridian passage and the time of high-water succeeding that transit. The true interval varies with the Moon's age, being least when the moon culminates about 4h. 30m. and greatest when culminating about 10 o'clock, and at the mean, generally when the moon is two days old. It sometimes happens that the tide comes in several hours later or earlier than the most learned calculation would determine; and this in consequence of the strength and direction of the wind, which the calculator cannot reckon upon. In using the quantities in this and the Star Table, observe that more than 12 days; and less than 24, from midnight or the beginning of morning, is afternoon of the same day; and that more than 12 hours and less than 24, from noon, is morning of the next day.

MAHOMETAN CALENDAR.—The year 1281 begins on the 6th of June, 1864, and ends May 26th, 1865. It is the 21st of the 42d cycle, containing 355 days. The year 1282 begins May 27, 1865, contains 354 days, ending May 15, 1866.

The Mahometan era began with the day after the flight of Mahomet to Medina; which event occurred in the night of Thursday, July 18 (N. S), 622 A. D. The year consists of 12 months, embracing 12 lunations, or 354 days. The intercalary, or leap-years, consist of 355 days. In a cycle of 30 years, there are 19 common and 11 leap-years. Since the Mahometan year is 11 days less than the tropical year, "it is obvious that in about 33 years the above months will correspond with every season and every part of the Gregorian year." The 9th month is the month of fasting.

STAR TABLE.

To ascertain when any star or constellation found in the following Table will be on the meridian, add the numbers opposite in the left-hand column of figures to the time of "Sidereal Time" found in the calendar pages. For the rising of a star, subtract the number opposite in the right-hand column of figures from its meridian passage. For the setting of a star, subtract the same number to its meridian passage. Those marked (...) revolve in a circle of declination, and do not rise nor set north of the latitude of New York (40° 42' 40"). The declination latitude the semi-diurnal arcs are calculated. The civil day begins at the preceding meridian passage, and consequently 24 hours after midnight, or 12 hours from noon, is morning of the succeeding day; and 24 hours to 36 hours from noon, is evening of the next day. The stars are arranged in the order of culmination.

The Jewish Era dates from the creation of the world, which the Jews believe to have been 3760½ years before our era began. The Jewish year is luni-solar, and consists of 12 and sometimes 13 months, which contain 29 or 30 days each. Ve-Adar is the 13th month, and is introduced between Adar and Nisan; the latter of which is the first month of the ecclesiastical year. In a cycle of 19 years, Ve-Adar is introduced 7 times.

The late Judge Peters has left behind him some good puns, among which is the following: When on the District Court Bench, he observed to Judge Washington that one of the witnesses had a vegetable head. "How so?" was the inquiry. "He has carrot hair, reddish cheeks, a turn-up nose, and a sage look."

WHAT is the difference between an attempted homicide and a hog butchery? One is an assault with intent to kill, and the other is a kill with intent to salt.

"WHAT are wages here?" asked a laborer of a boy. "I don't know, sir." "What does your father get on a Saturday night?" "Get!" said the boy, "why he gets as tight as a brick."

"MARY," said one pretty girl to another, "can you make up your mind to marry that odious Mr. Snuff?" "Why, my dear Julia," was the reply, "I don't know but what I might take him at a pinch."

OPPORTUNITIES, like eggs, must be hatched when they are fresh.

EATING THREE DAYS' RATIONS.—In the recent advance, Col. John Groesbeck, Thirty-ninth Ohio Infantry, being then in command of the since famous Ohio Brigade, issued an order to his command to put in their haversacks three days' cooked rations. The projected operations being subsequently postponed or changed, the Colonel directed the ration or order to be countermanded. His Teutonic messenger made the rounds of the camp in person, late at night, proclaiming that "Col. Groesbeck ordered his men to eat up their three days' cooked rations." The ridiculousness of the messenger's rendering of the Colonel's order struck everybody, and the boys solemnly got up from their beds and sat down to "obey orders." Soon the

camp were alive with fun rampant. Messes sent to "report progress" had got to the middle of the second day, or third day's breakfast, &c. Some begged an extension of the order, some an extension of time. One was full to the throat, and had a day and a half's rations left. What should he do? And so through all the changes possible. The Colonel and the Ohio Brigade, which loves him, will never forget the famous order to "eat the three days' cooked rations."

A DRUNKEN fellow, sitting on the steps of a church in Boston, the cold wind blowing chillingly round the corner: "If heaven (hic) tempers the wind to the (hic) shorn lamb, I wish the lamb (hic) was on this corner."

THE PHILOSOPHY OF HEAT.—Philosopher to sharp boy—"What are the properties of heat?"
 Boy—"The chief property is that it expands bodies, while cold contracts them."
 Philosopher—"Very good, give me an example."
 Boy—"In summer, when it is hot, the day is long; in winter, when it is cold, the day is short."
 Exit philosopher, lost in amazement that so familiar an instance should have so long escaped his own observation.

BEGINNING TO WALK.
 He's not got his sea-legs, the darling;
 He's been in our ship but a year;
 He isn't yet versed in our lingo—
 Knows nothing of sailing, I fear.
 But he soon will hear more of the billows,
 And learn the salt taste of the wave;
 One voyage, though it's short, is sufficient,
 When our ports are the cradle and grave.
 The young lady who gives herself away loses
 her self possession.

WHEN James T. Brady first opened a lawyer's office in New York, he took a basement room which had previously been occupied by a cobbler. He was somewhat annoyed by the previous occupant's callers, and irritated by the fact that he had few of his own. One day an Irishman entered. "The cobbler's gone, I see," he said. "I should think he had," tartly responded Brady. "And what do ye sell?" he asked, looking at the solitary table and a few law books. "Blockheads," responded Brady. "Be gorra," said the Irishman, "ye must be doing a mighty fine business—ye haln't got but one left."

A COLORED preacher within our lines recently felt constrained to preach against the extor-tions of the sutlers from which his flock had suffered. After much deliberation, he an-nounced his text as follows: "Now de ser-pent was more *sutler* than any beast of de field which de Lord God hath made."

DID the man who ploughed the sea, and af-terwards planted his foot upon his native soil, ever harvest the crops?

A WAG, speaking of a blnd wood-sawyer, says that "while none ever saw him see, thou-sands have seen him saw."

A RELATION BY MARRIAGE.

As my wife, at the window, one day,
 Stood watching a man with a monkey,
 A cart came by with a "broth of a boy,"
 Who was driving a stout little donkey.
 To my wife I then spoke, by way of a joke,
 "There's a relation of yours in that carriage!"
 To which she replied, as the donkey she spied,
 "Ah, yes, a relation—by marriage!"

An old gentleman of great experience says he is never satisfied that a lady understands a kiss unless he has it from her own mouth.

"BILL, did you ever go to sea?" "I guess I did. Last year, for instance, I went to see a red-headed girl, but I only went once." "Why so?" "Because her brother had an unpleasant way of throwing boot-jacks and smoothing-irons at people."

A COUNTRY editor, living on the line of a railroad, applied for a pass for himself, and added, "please embrace my wife." The superintendent returned a pass to the editor, but declined the proposed honor.

Mr. M., of a certain town in Vermont, is not distinguished for liberality, either of purse or opinion. His ruling passion is a fear of being cheated. The loss, whether real or fancied, of a few cents, would give him more pain than the destruction of an entire navy. He once bought a large cake of tallow at a country store, at ten cents a pound. On breaking it to pieces at home it was found to contain a large cavity. This he considered a terrible disclosure of cupidity and fraud. He drove furiously back to the store, entering in great excitement, bear-

ing the tallow, and exclaiming, "Here, you rascal, you have cheated me! Do you call that an honest cake of tallow? It is hollow, and there ain't near so much as there appeared to be. I want you to make it right." "Certainly, certainly," replied the merchant, "I'll make it right. I didn't know the cake was hollow. Let me see, you paid ten cents per pound. Now, Mr. M., how much do you suppose the hole will weigh?"
Hold fast to your character; it will be a support and happiness when all else fails.

BESSER, the poet, must have been an inveterate woman-hater. Hear him:
 "He laid him down and slept—and from his side
 A woman in her magic beauty rose:
 Dazzled and charmed, he called that woman
 bride,
 And his first sleep became his last repose."

WHY had a man better lose his arm than a leg?
 Because, losing his leg, he loses "something to boot."

The hat was passed around a certain congregation for the purpose of taking up a collection. After it had made the circuit of the church it was handed to the minister, who, by the way, had exchanged pulpits with the regular preacher, and he found not a penny in it. He inverted the hat over the pulpit cushion and shook it, that its emptiness might be known, then raising his eyes toward the ceiling he exclaimed with great fervor:—"I thank God that I got back my hat from this congregation."

LONG JOHN'S PLAN FOR SETTLING THE SLAVERY QUESTION.—In his late speech at Chicago, in reply to Vallandigham, "Long John Wentworth" administered this "settler" to the advocates of the divinity of slavery:

"The friends of slavery contend it is a divine institution, and a delegate to the Chicago Convention told me he believed it originated with God, who would protect it. Well, this suggested a new idea, and I said to him, then let us leave it to God. Fellow-citizens, I go for that. Let us leave this institution to God. The fugitive-slave law is repealed, and

now if a nigger runs away I am in favor of letting him run till God brings him back."

IRISH GALLANTRY.—An Irish coachman, driving past some harvest fields during summer, addressing a smart girl engaged in sheaving, exclaimed—"Arrah, me darling, I wish I was in jail for stealing ye!"

AN EDITOR attempts to explain to his readers the condition of affairs at his establishment, by the following lucid typographical effort:

"The Printer's are on A Strike for hisher WaGeS. We Have concluded to set o'r own tYp@s in fut Ure! It is aSy onOugh."

SINCE the advent of General Logan's splendid corps at Huntsville, the rooms in the principal hotels have been in demand. A beautiful and accomplished actress had been staying at the Huntsville Hotel, and in about a "minute," "minute-and-a-half," or "two minutes" after she had vacated her room; the gallant General O. was assigned to it by the landlord. The General, on examining his bed provided to retiring, found a snowy *robe de nuit* neatly folded under his pillow, marked in delicate characters with the name of the fair owner. The chambermaid was called and asked by the

General, holding the garment in his hand: "Do you know Miss Lottie Hough?" "Yes," answered the chambermaid. "Then, carry this to her with my compliments, and say General O—is not in the habit of sleeping with empty night-gowns."

A MINISTER, travelling through the West some years ago, asked an old lady on which he called what she thought of the doctrine of total depravity. "Oh," she replied, "I think it is a good doctrine if the people would only live up to it."

TEA BRANDS AND THEIR MEANING.—“Hyson” means “before the rains,” or “flourishing spring,” that is early in the spring; hence it is often called “Young Hyson.” “Hyson skin” is the refuse of other kinds, the native term of which is “tea skins.” Refuse of still coarser descriptions, containing many stems, is called “tea bones.” “Bohea” is the name of the hills where it is collected. “Pekoe,” or “Poco,” means “white hair,” the down of tender leaves. “Pouchong,” “folded plant,” “Souchong,” “small plant.” “Twankay,” name of a river where it is bought. “Congo,” signifying “la-

bor,” from the care required in its preparation. A FELLOW contemplated in utter wonderment the magnitudinous dimensions of a bystander's feet, and in a tone of astonishment, said, as he surveyed the man's proportions, “You'd have been a tall man if they hadn't bent your legs so far up.” THE LAST case of indolence is that of a man named John Hole, who was so lazy that in writing his name he simply used the letter J., and then punched a hole through the paper. THE ONLY wax-work that's of any account is got up by the bees.

SPOONER was arrested for drunkenness, and waxed indignant thereat. Spooner is loyal. "Now, I axes," says he, "If it's right to go and arrest a man for supporting the gov'ment. Every drop of licker I swallow is taxed—taxed to support the war. S'pose all us fel's was to stop drinkin'—why, the war'd stop, and the gov'ment'd stop. That's the very reason I drinks. I don't like grog; I mortally hates it. If I follered my own inclination, I'd rather drink buttermilk, or ginger pop, or soda. But I lickers for the good of my country, and to set an example of loyalty and virtuous resignation to the rising generation."

LADY F—had arrived at so extreme a degree of sensibility that, seeing a man go by with a mutilated wheelbarrow, she cried out to her companion, "Do turn aside, it distresses me to see that poor unfortunate wheelbarrow with one leg."

"I SAY, granny, is there anything good in the paper?" "What do you call good, my child?" "Oh, you know; something jolly—about a murder, or a fire, or anything of that sort."

DOBBS says he has one of the most obedient boys in the world. He tells him to do as he pleases, and he does it without murmuring.

A "DOWN-EAST" Yankee has invented a rat exterminator, consisting of snuff. The animal jerks its head off at the third sneeze.

It was a pretty conceit of a father named Rose, who named his daughter "Wild," so that she grew up as "Wild Rose." But the romance was sadly spoiled when she married a man by the name of "Bull."

"You bachelors ought to be taxed," said a lady to a resolute evader of the noose. "I agree with you, madam," was the reply, "bachelorism is a great luxury."

WHY THE STARS WINK.

"Alas! each hour of daylight tells
A tale of shame so crushing,
That some turn white as sea-bleached shells,
And some are always blushing.
"But when the patient stars look down
On all their light discoverers—
The traitor's smile, the murderer's frown,
The lips of lying lovers—
"They try to shut their saddened eyes,
And in the vain endeavor
We see them twinkling in the skies,
And so they wink forever."

Exemption, thus obtained, shall not exceed the time for which such person was drafted. Any person now in the military or naval service of the United States, not physically disqualified, whose term of unexpired service shall not exceed six months, may be employed as a substitute, on account of the State for which he enlisted. The payment of commutation money exempts only from the immediate quota, and not from the filling of future quotas; and in no case shall exemption, so obtained, extend beyond one year. The enrollment includes persons arriving at the age of twenty years before the draft, aliens who have declared their intentions to become citizens, all persons discharged from service who have not been in such service two years during the present war. Unionists (in Roman), 133; Democrats (in Italics), 56. Whole number elected, 169. Those marked with a dagger (†), in all, 87, were members of the XXXVIIIth Congress. The seats of those marked with a (C), are contested. There will be 16 more elected; and, should Tennessee send a full delegation, and Louisiana fill her vacancies, there would be 197 members.

ACTS OF CONGRESS.

SYNOPSIS OF THE PRINCIPAL ACTS PASSED AT THE FIRST SESSION OF THE
THIRTY-EIGHTH CONGRESS.

CHAP. II.—*War Office.*—Creates the office of Second Assistant Secretary of War. Salary, \$5,000.

CHAP. V.—*Clothing by Mail for the Army.*—Permits packages of clothing not more than two pounds weight to be sent by mail to men in the army, at eight cents for every four ounces or fraction of four ounces.

CHAP. V.—*Courts in Tennessee.*—Transfers the U. S. Courts for West Tennessee to Memphis, with power to hold terms at Knoxville and Nashville, if expedient.

CHAP. IX.—*Courts in California and Oregon.*—Regulates terms of U. S. Courts in California and Oregon, and defines modes of procedure. In California the Circuit sits at San Francisco on the 1st Monday in February, 2d Monday in June, and 1st Monday in October, and at Monterey the 1st Monday of April, 2d Monday of August, and 1st Monday in December. In Oregon, terms shall be held at Portland the 1st Monday in January, the 1st Monday in May, and the 1st Monday in September. The District Court is held at Monterey, Cal., 1st Monday February, 1st Monday June, and 1st Monday October; at San Francisco, 1st Monday April, 2d Monday August, 1st Monday December. In Oregon, at Portland, 1st Monday March, 1st Monday July, 1st Monday November.

CHAP. XIII.—*Amendment to the Enrollment Act.*—Authorizes the President to call for such number of men as the public exigencies may require. Quotas of wards, towns, &c., to be determined according to their population, taking into account the number previously furnished, for the naval as well as the military service. If quotas are not filled in time by volunteering, a draft to be made for the deficiency—volunteering to go on up to the actual occurrence of the draft. Enrolled persons may furnish substitutes, who are not liable to the draft, and who shall then enjoy an exemption from draft not exceeding the time for which such substitutes shall have been accepted. Drafted persons may also furnish acceptable substitutes, in the same manner. Exemption, thus obtained, shall not exceed the time for which such person was drafted. Any person now in the military or naval service of the United States, not physically disqualified, whose term of unexpired service shall not exceed six months, may be employed as a substitute, on account of the State for which he enlisted. The payment of commutation money exempts only from the immediate quota, and not from the filling of future quotas; and in no case shall exemption, so obtained, extend beyond one year. The enrollment includes persons arriving at the age of twenty years before the draft, aliens who have declared their intentions to become citizens, all persons discharged from service who have not been in such service two years during the present war. Seamen, drafted,

may enlist in the naval service, within eight days after notification; provided, that the enlistment is for the same period required by the draft; and that satisfactory proof shall be afforded that the person in question is a seaman by vocation. Any person now in the military service may also enlist into the navy, upon making similar proof with the above; but the bounty-money, which he may have received as a soldier, shall be deducted from the prize-money to which he may become entitled; provided, that the whole number of such transfers shall not exceed ten thousand. Seamen, thus enlisting, shall be credited to the town, ward, &c., whence they come, as well as those enlisting into the marine corps, under such regulations as the Provost-Marshal General may prescribe. Exempts from enrollment are those who are physically unfit for service, all persons who are now in the military or naval service, and all who have been honorably discharged therefrom, after a service of two years, during the present war. The law for the enrollment into two classes is hereby repealed. Persons forcibly resisting the enrollment, shall, upon conviction, be fined not exceeding five thousand dollars, imprisoned not exceeding five years, or both, at the discretion of the court; without being relieved from liability to the laws of the State in which the offense may have been committed. Persons conscientiously opposed to bearing arms, if drafted, shall be assigned to hospital or other peaceful duty, or pay the sum of three hundred dollars for the benefit of sick and wounded soldiers. Persons of foreign birth are not to be exempted, if they have voted or held any public offices under any State, Territory, or the United States. Persons obtaining exemption by fraud shall be deemed deserters, and punished accordingly. Able-bodied male colored persons shall also be enrolled, and form part of the national forces; the slaves of loyal masters, upon being drafted, becoming free, their bounty of one hundred dollars being paid the former master. A commission, appointed to each of the loyal Slave States, shall determine the value of each slave so drafted, not to exceed three hundred dollars, payable to loyal masters out of funds derived from commutations. Colored volunteers or conscripts shall be credited on the quotas of States whence they come, but shall be mustered into service as United States colored troops.

CHAP. XIV.—*Lieutenant-General.*—Revives the grade of Lieutenant-General (the President to appoint by consent of Senate). Pay the same as that of Lieut.-Gen. Scott.

CHAP. XVII.—*Loan Act.*—Authorizes Secretary of Treasury to borrow \$200,000,000 on gold interest five-forty registered coupon bonds. Also extends the issue to subscribers to the five-twenties by \$11,000,000.

CHAP. XVIII.—*Overland Emigrants.*—Gives

for the protection of emigrants overland across the States.

XX.—*Liquor Taxation, &c.*—Levies per gallon on spirits distilled, sold, or re-sold before July 1st. Duty rated on proof, and increased according to degree of proof. Where these duties are not paid, the spirits may be seized and sold after due process. Spirits for exportation may be taken out of the country without paying this duty, but drawback is not allowed. Sec. 4 puts a duty of two cents per lb. on cotton, except that sold by or on account of the Government. Sec. 7 imposes 40 cts. per gallon on imported distilled spirits of first proof, also taxing at the same rate stocks on hand. Sec. 8 declares consuls of other countries not citizens here exempt from income tax. Sec. 9 extends the law of March 2, 1833, giving power to revenue collectors to all the collectors under this act.

CHAP. XXIII.—*Trade with the Indians.*—Declares that any person selling or giving spirituous liquors to Indians, on conviction, shall be imprisoned not more than two years and fined not over \$300. Indian agents may search where they have reason to suspect an intention to introduce liquors. If any be found it is forfeit, one half to the informer and the other to the Government. Any person in Government service must seize and destroy any liquor actually found in the Indian country, unless introduced by authority of the War Department. In cases under this act, Indians are competent witnesses.

CHAP. XXVII.—*Ambulance System.*—Gives the Medical Director of the Army and the Medical Directors of each Corps direction of ambulances, medicines, help, and everything pertaining to that branch of duty. Sec. 2 establishes regular ambulance corps in each command, with a captain and under-officers—the men to be selected for fitness. Sec. 3 provides for two-horse ambulances on the basis of three to each regiment of 500 strong, one each for smaller regiments, and one for each battery. Sec. 4. Horse and mule litters may be substituted where necessary. Sec. 5. Captains of ambulance corps must drill and instruct their men and see everything ready in camp or on march. Ambulances can only be used to transport sick and wounded, or medical supplies in extreme cases. None but ambulance and medical force, or men specially detailed shall be allowed to take or accompany wounded to the rear. Special uniform marks are provided for the ambulance forces. Other sections provide for reports and minor duties.

CHAP. XXVIII.—*Port of Delivery.*—Makes Parkersburg, West Va., a port of delivery in the collection district of New Orleans.

CHAP. XXXVI.—*Nevada Enabling Act.*—Authorizes Nevada Territory to form a State Government, consisting of the following territory: Commencing at the intersection of the thirty-eighth degree of longitude west from Washington with the thirty-seventh degree of north latitude; thence due west along said thirty-seventh degree to the eastern boundary of California; thence in a northwesterly direction along the said eastern boundary to the forty-third degree of longitude; thence north along said forty-third degree and said eastern boundary line to the forty-second degree; thence due

east along the said forty-second degree to its intersection with the aforesaid thirty-eighth degree of longitude; thence due south down said thirty-eighth degree of longitude to the place of beginning. All persons qualified to vote for territorial Assemblymen, may vote for a Convention—to frame a State Constitution—soldiers in the army may also vote. A State Constitution must “be republican and not repugnant to the Constitution of the United States and the principles of the Declaration of Independence;” and said Convention shall provide by an irrevocable, without the consent of the United States and the people of said State: First, That there shall be neither slavery nor involuntary servitude in the said State, otherwise than in the punishment of crimes, whereof the party shall have been duly convicted. Second, That perfect toleration of religious sentiment shall be secured, and no inhabitant of said State shall ever be molested in person or property on account of his or her mode of religious worship. Third, That the people inhabiting said territory do agree and declare that they forever disclaim all right and title to the unappropriated public lands lying within said territory, and that the same shall be and remain at the sole and entire disposition of the United States; and that the lands belonging to citizens of the United States residing without the said State shall never be taxed higher than the land belonging to the residents thereof; and that no taxes shall be imposed by said State on lands or property therein belonging to, or which may hereafter be purchased by, the United States. [The Convention has been held and the State Constitution adopted, so there is no occasion to reproduce the details of the law of Congress.] School lands and lands for public buildings are set apart; five per cent. of the proceeds of all public lands sold by the United States after Nevada is admitted into the Union, is to be paid to the State for public roads, canals, irrigation, &c., as the Legislature may direct.

CHAP. XXXVII.—*Colorado Enabling Act.*—[This act is in all respects the same as that for Nevada. Colorado, however, voted down the Convention, preferring, at present, to remain a territory. The boundaries are as follows:] Commencing at a point formed by the intersection of the thirty-seventh degree of north latitude with the twenty-fifth degree of longitude west from Washington; extending thence due west along said thirty-seventh degree to its intersection with the thirty-second degree of longitude; thence due north along said thirty-second degree of longitude to its intersection with the forty-first degree of north latitude; thence due east along said forty-first degree to its intersection with the twenty-fifth degree of longitude, thence due south along said twenty-fifth degree of west longitude to the place of beginning.

CHAP. XXXVIII.—*Amendatory of the Homestead Law.*—In case of any person desirous of availing himself of the benefits of the homestead act of 20th of May, 1862, but who, by reason of actual service in the military or naval service of the United States, is unable to do the personal preliminary acts at the district land-office which the said act of 20th May, 1862, requires, and whose family, or some member thereof, is residing on the land which he desires to

enter, and upon which a bona fide improvement and settlement have been made, it shall and may be lawful for such person to make the affidavit required by said act before the officer commanding in the branch of the service in which the party may be engaged, which affidavit shall be as binding in law, and with like penalties, as if taken before the register or receiver; and upon such affidavit being filed with the register by the wife or other representative of the party, the same shall become effective from the date of such filing, provided the said application and affidavit are accompanied by the fee and commissions, as required by law. Sec. 2. That besides the ten-dollar fee exacted by the said act, the homestead applicant shall hereafter pay to the register and receiver each, as commissions, at the time of entry, one per centum upon the cash price as fixed by law, of the land applied for, and like commissions when the claim is finally established and the certificate therefor issued as the basis of a patent. Sec. 3. That in any case hereafter in which the applicant for the benefit of the homestead, and whose family or some member thereof, is residing on the land which he desires to enter, and upon which a bona fide improvement and settlement have been made, is prevented, by reason of distance, bodily infirmity, or other good cause, from personal attendance at the district land-office, it shall and may be lawful for him to make the affidavit required by the original statute before the clerk of the court for the county in which the applicant is an actual resident, and to transmit the same, with the fee and commissions, to the register and receiver. Sec. 4. That in lieu of the fee allowed by the twelfth section of the preëmption act of fourth September, 1841, the register and receiver shall each be entitled to one dollar for their services in acting upon preëmption claims, and shall be allowed, jointly, at the rate of fifteen cents per hundred words for the testimony which may be reduced by them to writing for claimants, in establishing preëmption or homestead rights, the regulations for giving proper effect to the provisions of this act to be prescribed by the commissioner of the general land-office. Sec. 5. That where a preëmptor has taken the initiatory steps required by existing laws in regard to actual settlement, and is called away from such settlement by being actually engaged in the military or naval service of the United States, and by reason of such absence is unable to appear at the district land-office, to make, before the register or receiver, the affidavits required by the thirteenth section of the preëmption act of the fourth September, 1841, the time for filing such affidavit and making final proof and entry or location, shall be extended six months after the expiration of his term of service, upon satisfactory proof by affidavit, or the testimony of witnesses, that the said preëmptor is so in the service, being filed with the register of the land-office for the district in which his settlement is made. Sec. 6. That the registers and receivers of the State of California, in the State of Oregon, and in the Territories of Washington, Nevada, Colorado, Idaho, New Mexico, and Arizona, shall be entitled to collect and receive, in addition to the fees and allowances provided by this act, fifty per centum of said fees and allowances as com-

ensation for their services; provided, that the salary and fees allowed any register or receiver shall not exceed in the aggregate the sum of three thousand dollars per annum.

CHAP. XL.—*Foreign Mails.*—Provides that all steamers belonging to citizens of the United States, bound to or from any foreign port, shall carry such mails as the Post Office Department, or ministers, consuls, and commercial agents abroad shall offer for such compensation as may be fixed by law. Masters must report, under oath, concerning such mails. Contracts may be made for California mails via Panama or by Nicaragua route for not more than \$160,000 per year. Sec. 4. That all mailable matter carried between Kansas and California shall be subject to pre-paid letter postage rates, except that regular subscribers may receive one regular newspaper, and franked matter may go at usual rates. Sec. 5. Authorizes contracts for steam mail service between our own ports. Sec. 6. Fixes a fine of \$100 to \$500 for putting "United States Mail," or words to that effect, upon steamers, &c., not in mail service. Sec. 7. Authorizes the Postmaster-General to suspend, where he thinks proper, the act prohibiting the private carrying of sealed letters on a mail route.

CHAP. XLVI.—*Revolutionary Pensions.*—Increases to \$100 per year all the remaining pensions for services in the Revolutionary War.

CHAP. XLVIII.—*Indians in California.*—Makes that State a separate district, with a Superintendent of Indian Affairs. The President may set apart four tracts for Indian reservations as remote as practicable from white settlements. Provision is made for physicians, farmers, blacksmiths, carpenters, &c., on the reservations. Sec. 7 enacts that Indian agents shall reside at their respective agencies, and shall in no case visit Washington except when ordered to do so by the Commissioner of Indian Affairs.

CHAP. LVIII.—*College Lands.*—Extends until April 14, 1866, the time within which any State or Territory may accept the benefits of the Act of July 2, 1862, donating lands to the States for colleges, agriculture and the mechanic arts; also extends the act to West Virginia.

CHAP. LIX.—*Nebraska Enabling Act.*—[Same as that of Nevada, with the following boundaries:] Commencing at a point formed by the intersection of the western boundary of the State of Missouri with the fortieth degree of north latitude; extending thence due west along said fortieth degree to its intersection with the twenty-fifth degree of longitude west from Washington; thence north along said twenty-fifth degree to its intersection with the forty-first degree of north latitude; thence west along said forty-first degree of north latitude to its intersection with the twenty-seventh degree of longitude; thence north along said twenty-seventh degree of longitude to its intersection with the forty-third degree of north latitude; thence east along said forty-third degree to the *Roca Paha* river; thence down the middle of the channel of said river, with its meanderings, to its junction with the *Niobrara* river; thence down the middle of the channel of said *Niobrara* river, and following the meanderings thereof, to its junction with the *Missouri* river; thence down the middle of the channel of said *Missouri* river, and following the meanderings thereof, to

the place of beginning. Nebraska has declined, thus far, to form a State Constitution.

CHAP. LX.—*Rock Island Arsenal.*—Provides for taking possession of Rock Island, Mississippi river, as a site for a Government Arsenal.

CHAP. LXVI.—*The New Cent.*—Provides for coining a cent and a two-cent piece, the first 43 grains, the other 96 grains in weight. (The cent weighs exactly one-tenth of a Troy ounce.) These coins are 95 per cent. copper and 5 per cent. of tin and zinc. The one cent coin is a legal tender to the amount of ten cents—the two cent piece to the amount of twenty cents. The Mint may sell them for lawful United States currency at par. If any person shall make or pass any coin, token, card or anything intended to be passed as money for one or two cent pieces, he shall, on conviction, be fined not over \$1,000, and imprisoned not more than five years.

CHAP. LXIX.—*To Prevent Collisions at Sea.*—This act establishes a comprehensive series of rules for lights, flags, whistles, &c., on vessels, and directs how they shall pass each other when at sea. It establishes a New Code, which went into effect on the 1st of September.

CHAP. LXXVII.—*Indian Lands in Utah.*—Provides for selling all Indian reservations in Utah, except in Unita Valley, at which place the Indians are to be collected as far as possible, and provision made for their welfare.

CHAP. LXXVIII.—*Names on Vessels.*—Every steamboat shall have its name on the stern, on each side of the pilot house, and if a side-wheeler, on the wheel houses. No name shall be changed or disguised.

CHAP. LXXIX.—*Lands to Minnesota.*—Grants lands (reserving minerals) in alternate sections of five sections to a mile on each side of a proposed railroad from St. Paul to the head of Lake Superior. The minimum price of the sections not granted shall be \$2.50 per acre. The road to be completed within eight years, or the grant reverts.

CHAP. LXXX.—*Lands to Wisconsin.*—Grants, upon usual terms, lands to aid in building a railroad from St. Croix Lake to Lake Superior; a road from Tomah, Monroe Co., to St. Croix Lake; and a road from Fond du Lac to Bayfield.

CHAP. LXXXIII.—*Tonnage.*—This is an elaborate law upon the subject of measuring tonnage of vessels.

CHAP. LXXXIV.—*Lands to Iowa.*—Grants lands for a railroad from Sioux City to the southern line of Minnesota; also a road from South McGregor westward near the 49d parallel to intersect the road first named. The grants are of alternate odd numbers, ten sections wide on each side of the roads, with usual guarantees to occupied and preempted lands. The minimum price shall be double that of public lands. Patents are to issue for 100 sections on the completion of ten miles of road. There is also a grant of land for a road from St. Paul and St. Anthony via Minneapolis to the southern line of the State near the mouth of the Big Sioux.

CHAP. LXXXVII.—*Postal Money Orders.*—Allows the establishment of Money-Order offices on a plan similar to that in Great Britain. This law went into effect on the 1st of November, 1864, at about 140 post offices. The law is elaborate and intricate, and mainly for postmasters' guidance. The object and effect of

money orders, and how to use them, will best be understood from the following statement: The object of the postal money order system is to provide a cheap, swift, and safe means of sending small sums of money through the mails, when bank drafts cannot be readily procured. The money order is made safer than a bank draft even, by leaving out of the order the name of the party for whom the money is intended. The sums for which one money-order office may draw on another ranges from one to thirty dollars, no order being issued for less than one dollar, nor are fractions of cents to be introduced into an money order. The commission on orders not exceeding \$10 is ten cents; over \$10 and not exceeding \$20, fifteen cents; and on those over \$20, up to \$30, twenty cents. To obtain an order for money, apply to the postmaster of one of the money-order offices. He will furnish the applicant with a printed blank to be filled out with all the particulars of amount, name, address, required to be stated on the money order. The order is then completed and handed to the applicant upon payment of the sum named and the fee, which fee must be paid in money, no postage stamps being received for fees; and no money will be received for orders except coin, United States notes, or notes of national banks, and orders cannot be paid in any other currency. By the mail immediately following the issue of an order, the postmaster advises the postmaster at the office on which it was drawn of the fact, and the latter is thus furnished with all necessary information before the order itself can be presented, to enable him to detect fraud, should any be intended. A money order is rendered invalid unless presented within ninety days from its date, to the postmaster on which it was drawn. But the Postmaster-General can issue a new order on the application of the payee, and the payment of a second fee, and a similar plan is to be pursued when an order is lost; the payee furnishes a sworn statement that the order is lost or destroyed, accompanied by the certificate of the postmaster that it has not been paid and will not be if afterwards presented. A money order can be transferred by the payee indorsing it on the back, with the limitation that an order can be indorsed only once. This is to enable persons residing at a distance from money-order offices to avail themselves of the advantages of the system. The New York office is to do the banking for all the other offices—will receive the money taken for all orders, and postmasters elsewhere will draw on the New York office for the funds they need.

CHAP. XCII.—*Veteran Volunteer Engineers.*—Authorizes such a regiment to be organized of veterans in the Army of the Cumberland.

CHAP. XCV.—*Montana Territory.*—Organizes a temporary government in this new Territory, which is within the following boundaries: Commencing at the intersection of the twenty-seventh degree of longitude west from Washington with the forty-fifth degree of north latitude; thence due west on said forty-fifth degree to its intersection with the thirty-fourth degree of longitude; thence due south along said thirty-fourth degree to the forty-fourth degree and thirty minutes; thence due west along said forty-fourth degree and thirty minutes to its intersec-

tion with the crest of the Rocky Mountains; thence following the crest of the Rocky Mountains northward till its intersection with the Bitter Root Mountains; thence northward along the crest of Bitter Root Mountains to its intersection with the thirty-ninth degree of longitude; thence along said thirty-ninth degree northward to the boundary line of the British possessions; thence eastward along said boundary line to the twenty-seventh degree of longitude; thence southward along said twenty-seventh degree to the place of beginning. The provisions of the act are unimportant save that slavery is expressly forbidden. *Boundary of Idaho changed.*—The last section of the Montana Act provides that "until Congress shall otherwise direct, all that part of the Territory of Idaho included within the following boundaries, to wit: Commencing at a point formed by the intersection of the thirty-third degree of longitude west from Washington with the forty-first degree of north latitude; thence along said thirty-third degree of longitude to the crest of the Rocky Mountains; thence northward along the said crest of the Rocky Mountains to its intersection with the forty-fourth degree and thirty minutes of north latitude; thence eastward along said forty-fourth degree thirty minutes to the thirty-fourth degree of longitude; thence northward along said thirty-fourth degree to the forty-fifth degree north latitude; thence eastward along said forty-fifth degree to the twenty-seventh degree of longitude; thence south along said twenty-seventh degree to the forty-first degree north latitude; thence west along said forty-first degree to the place of beginning, shall be, and is hereby, incorporated temporarily into and made part of the Territory of Dakota."

CHAP. XCVII.—*Sioux Damages.*—Appropriates about \$1,200,000 to pay ascertained damages by the Sioux Indians.

CHAP. XCVIII.—*Ocean Mails.*—Authorizes the P. M. General to unite with the Post-Office Department of Brazil to establish a monthly mail by steamers to Rio Janeiro, touching at St. Thomas, Bahia, Pernambuco, and other ports, if deemed advisable; the work to be let to the lowest bidder. Provision is made that the steamers shall be of the best class.

CHAP. CII.—*Franked Matter.*—All communications relating to the official business of the department to which they are sent, addressed to the chiefs of the several executive departments of the government, or to such principal officers of each executive department, being heads of bureaus or chief clerks, or one duly authorized by the Postmaster-General to frank official matter, shall be received and conveyed by mail free of postage without being indorsed "official business," or with the name of the writer.

CHAP. CIII.—*Lands to Iowa.*—The route of the proposed road from Davenport to Council Bluffs may be changed, but must still pass through Des Moines and Council Bluffs, and through or near Newtown, Jasper County. Grants of lands are changed to correspond. The Burlington and Missouri River road, and the Cedar Rapids and Missouri River road are also authorized to change their lines; and so may the Dubuque and Iowa City road. The act contains the usual provisions protecting the rights of the General Government.

CHAP. CVI.—*National Currency.*—Establishes a separate bureau, to be charged with the execution of this and all laws respecting a National Currency, secured by United States bonds, and names the officers of said bureau, together with the securities conditioned by their assumption of office. Every certificate assignment, and conveyance, shall be as valid, when the comptroller's sealed is stamped on the paper. Associations for carrying on the business of banking may be formed by any number of persons not less than five, who shall enter into articles of association, signed by the members of the association, a copy of which shall be forwarded to the comptroller of the currency. The persons forming such an association shall make a certificate, specifying the name of the association, the place where its operations are to be carried on, the amount of its capital stock, and the number of shares into which it shall be divided, and the presentation of this certificate, when properly executed, shall be legal evidence of the existence of such association in all courts and places within the jurisdiction of the United States government. The requisite capital for the organization of associations of this kind, shall be not less than two hundred thousand dollars, in a city exceeding fifty thousand inhabitants, and not less than one hundred thousand dollars in a city whose population is less than fifty thousand; provided, however, that banks may be organized, with a capital of not less than fifty thousand dollars, in any place not exceeding six thousand inhabitants, with the approval of the Secretary of the Treasury. Such association shall transact no business, except such as may be incidental to its own organization, until authorized by the Comptroller of the Currency. It shall have power to adopt a corporate seal, elect directors, and, through them, appoint a president, vice-president, cashier, and other officers; and its board of directors shall also define and regulate the manner in which its stock shall be transferred, and its general business conducted. The number of directors must be not less than five, one of whom shall be president. All of the directors must be citizens of the United States, and at least three-fourths of them must reside in the State in which the association is located, for one year before their election, and must continue in the same while they remain in office; and it is necessary that each director shall own at least ten shares of stock. In all elections of directors, and in deciding all questions at meetings of shareholders, each shareholder shall be entitled to one vote on each share of stock held by him; voting by proxies being permissible, provided that the proxies be no officers of the association, and that they be duly authorized. The capital stock of any association shall be in shares of one hundred dollars each, deemed personal property, and transferable on the books of the association. The shareholders shall be held individually responsible, equally and ratably, and not one for another, for all contracts, debts, and engagements of their association, according to the par value of their amount of stock therein, in addition to the amount invested in such shares; except in the case of shareholders in present existing State banking institutions, of not less than five millions of dollars of capital, and a surplus of twenty per centum on hand,

who shall be liable only to the amount invested in their shares. It shall be lawful for an association, formed under this act, to provide for an increase of its capital from time to time, subject to the limitations of this act; provided, that the maximum of such increase shall be determined by the Comptroller; and that no increase of capital shall be valid until the whole amount of such increase shall be paid in. And every association shall have power, by a vote of shareholders owning two-thirds of its stock, to reduce the capital of such association to any amount not below the amount required by this act for its outstanding circulation. At least fifty per centum of the capital stock of every association must be paid in to authorize a commencement of business; and the remainder of the capital stock shall be paid in installments of at least ten per centum each on the whole amount of capital, as frequently as one installment at the end of each month succeeding the time of commencing business. And if any shareholder, or his assignee, shall fail to comply with any of these regulations for payment of stock, the directors of such association may sell his stock at public auction, after having given him due notice thereof, the proceeds of the sale to go to the payment of the amount then due thereon, and the excess, if any, to be paid to the delinquent shareholder. If the stock of the delinquent cannot be sold for enough to cover the amount due, with the incidental expenses, the amount previously paid shall be forfeited to the association—thence to be sold within six months after the forfeiture, or, if not sold, to be canceled and deducted from the capital stock of the association. If this shall reduce the capital below the requisite minimum of capital, the capital stock shall, within thirty days after such cancellation, be increased to the requirements of the act; in default of which the association shall be closed up according to the fiftieth section of this act. Every association, preliminary to commencing business, shall deliver to the Treasurer of the United States United States registered bonds to an amount equal to one-third of the capital stock; the deposit to be increased as the capital is paid up or increased; while an association, desiring to diminish its capital, or to close up its business, may take up its bonds, upon returning to the comptroller its circulating notes. The comptroller shall examine and determine if any association can commence business. All transfers of United States bonds shall be made to the Treasurer of the United States, in trust for the association, the comptroller to keep the transfer-book. Associations, after the transfer and delivery of bonds to the Treasurer, may receive from the Comptroller circulating notes, in blank, equal in amount to ninety per centum of the current market value of the United States bonds so transferred; but, at no time shall the total amount of such notes exceed the amount of its capital stock actually paid in. The entire amount of circulating notes, to be issued under this act, shall not exceed three hundred millions of dollars. Such notes shall be received at par in payment of all indebtedness to the United States, except for debts on imports; and also for all indebtedness of the United States, except interest on the public debt, and in redemption of the national currency. Associations shall, annually or oftener,

examine its bonds deposited, and execute to the Treasurer a certificate, setting forth the different kinds, and the amounts thereof; such examination to be made by a duly appointed officer or agent of the association, whose certificate shall be of full force and validity. The deposited bonds shall be held exclusively for the security of the association's circulating notes, the association having the benefit of the interest on the bonds which it may have deposited, so long as it may redeem its circulating notes. Whenever the value of the bonds depreciates below the amount of the circulation, for which they stand security, the Comptroller may demand other bonds, to the amount of the depreciation, to be deposited with the Treasurer as long as such depreciation continues. Bonds deposited may be exchanged for other United States bonds, authorized by this act, at the option of the Comptroller; who also may authorize the return to an association of its bonds, of not less than one thousand dollars, upon the cancellation of a proportionate amount of circulating notes; provided, that the remaining deposited bonds shall be equal to the amount of circulating notes not surrendered, and that the amount of bonds shall not be reduced below the amount required to be kept on deposit; and provided, that there shall have been no violation of the provisions of this act, on the part of the association. The countersigning and delivery of circulating notes, except as permitted by this act, is unlawful; and any officer convicted of the same, shall be deemed guilty of a high misdemeanor, and shall be punished by fine not exceeding double the amount so countersigned and delivered, and imprisonment not less than one and not more than fifteen years. An association shall purchase, hold, and convey real estate, first—such as shall be necessary for the transaction of its business; secondly—such as shall be mortgaged to it in security for debts previously contracted; thirdly—such as shall be conveyed to it in satisfaction of debts previously contracted; fourthly—such as it shall purchase under judgments, decrees, or mortgages, or shall purchase to secure debts due to said association. The total liabilities to any association, of any person, company, corporation, or firm, shall at no time exceed one-tenth part of the capital stock of such association, actually paid in; provided, that the discount of commercial paper, actually owned by the person, company, &c., negotiating the same, shall not be considered as money borrowed. The established interest of the State or Territory, wherein the banking association is located, shall govern its charge of interest on loans, notes, bills, &c., and, when there is no established interest in such State or Territory, the association may take interest not exceeding seven per centum. The penalty for taking greater interest than herein prescribed shall be a forfeiture of the entire interest which has been agreed to be paid; and the person or persons who may have paid a greater interest, may recover back from the association receiving the same twice the amount of the interest thus paid; provided, that such action for recovery is commenced within two years after the occurrence of the usurious transaction. The circulating notes of the different associations shall be redeemed in New York at par, by associations selected for that purpose.

Any and all notes of any association shall be received at par by every other association. Dividends may be declared semi-annually, after one-tenth part of net profits shall have been carried to the surplus fund. Associations shall not make loans on the security of their capital stock, unless to prevent loss upon a debt. The indebtedness of an association must not exceed its capital stock, except on account of its notes of circulation, moneys deposited with the association, bills of exchange against the moneys of the association, and on account of liabilities for dividends and reserved profits. Associations shall not hypothecate their circulating notes, nor withdraw any portion of their capital. The comptroller shall keep control of plates and special dies, expenses to be borne by associations. Associations shall pay to the Treasurer, half-yearly, a duty of one half per centum on their circulating notes, one quarter per centum on their deposits, and one quarter per centum on their capital stock beyond the amount invested in United States bonds. But neither shares nor real estate shall be exempt taxation by State authority. Associations may be closed by a vote of shareholders owning two-thirds of the stock. Under a similar vote, State banks may become national associations, by undergoing the necessary process. If associations fail to redeem their circulation, the notes may be protested, unless the president or cashier shall forward to the Comptroller a written admission of the protest, and, after such default, the association shall do no banking business, except to receive money belonging to it, and to deliver special deposits. When the Comptroller shall have ascertained the facts, he will, within thirty days, declare the United States bonds and securities pledged by such defaulting association, forfeited, and notify the holders of notes to present them for payment at the Treasury of the United States; whereupon an amount of bonds, equal to the notes redeemed by the Treasurer, shall be canceled; and, thereafter, the United States shall have priority of lien upon assets of an association for any deficiency in the redemption of its circulation; or the Comptroller may supply such deficiency by a sale, at auction, or at private sale, of the bonds in pledge, to an extent that will redeem the outstanding notes. The Comptroller may appoint a receiver, to close the affairs of a defaulting association; but, if the association denies that it has failed to redeem its notes, it may apply to the courts for an injunction. All transfers, assignments, &c., in contemplation of insolvency, shall be void. Directors of associations shall be held individually liable for any violation of the provisions of this act. Officers who shall embezzle the funds of an association, shall, upon conviction, be imprisoned for not less than five nor more than ten years. Suitable penalties are awarded to persons uttering notes, counterfeiting, or knowingly uttering counterfeit, notes, for making plates for forging notes, for having blank notes, with unlawful intent, &c. The Comptroller of the Currency shall report annually to Congress a summary of the condition of every association from whom reports have been received during the preceding year, and everything thereto pertaining. The last section repeals the Act of February 25th, 1863, on the same subject. (See TRIBUNE ALMANAC for 1864, p. 29.)

CHAP. CX.—*Lands to Michigan.*—Amends former act so as to change the line of the proposed road from Fort Wayne, Ind., to Grand Rapids and Traverse Bay, Mich.

CHAP. CXIV.—*Counterfeiting.*—Punishes by \$3,000 fine and five years imprisonment, or both, the making or passing or attempting to pass off any base coin of whatever device intended to be used as current money.

CHAP. CXVI.—*Carrying Treaties into Effect.*—Stipulates how consuls and commercial agents are to exercise jurisdiction over controversies between officers of vessels, mariners, &c.

CHAP. CXVII.—*Release of Property.*—Provides for release from attachment of property claimed by the United States.

CHAP. CXVIII.—*Limit of Action.*—Whenever, during the present rebellion, any action, civil or criminal, shall accrue against any person who, by reason of resistance to the execution of the laws of the United States, or the interruption of the ordinary course of judicial proceedings, cannot be served with process for the commencement of such action or the arrest of such person, or whenever, after such action, civil or criminal, shall have accrued, such person cannot, by reason of such resistance of the laws, or such interruption of judicial proceedings, be arrested or served with process for the commencement of the action, the time during which such person shall so be beyond the reach of legal process shall not be deemed or taken as any part of the time limited by law for the commencement of such action.

CHAP. CXIX.—*Anti-Bribery Act.*—No Senator or Member of Congress, while in office, nor any head of department, of bureau, or clerk, nor any officer in government service, shall receive or agree to receive any compensation whatsoever, for any services to any person, either by himself or another, in relation to any proceeding, contract, claim, controversy, charge, accusation, arrest, or other matter or thing in which the United States is a party, or interested. Any person offending against any provision of this act shall, on conviction thereof, be deemed guilty of a misdemeanor, and be punished by a fine not exceeding ten thousand dollars, and by imprisonment not exceeding two years, at the discretion of the court, and shall be forever thereafter incapable of holding any office of honor, trust, or profit under the government of the United States.

CHAP. CXXI.—*Offenses at Sea.*—Provides for special sessions of United States district courts to try complaints against officers and mariners of vessels, for offenses not capital or infamous. They are to be investigated by the district attorney, and summarily tried.

CHAP. CXXVII.—*Time Sales of Gold.*—[This act prohibited speculation in gold; was afterwards repealed.]

CHAP. CXXX.—*Trade with British Provinces.*—All vessels navigating the waters of our northern, northeastern, and northwestern frontiers, are to be enrolled, but do not need certificate of register. The remainder of the act regulates the salaries and fees of collectors.

CHAP. CXXXIV.—*Ontonagon Railroad.*—Extends for five years the time first fixed for completing the Merqueth and Ontonagon Railroad.

CHAP. CXXXVII.—*Lands to Michigan.*—Lands granted to Michigan for wagon-road from Saginaw to the Straits of Mackinaw; and one from Grand Rapids to Straits of Mackinaw. Roads to be public highways, and be completed in five years.

CHAP. CXLV.—*Pay of Soldiers—Military Justice, &c.*—Increases the pay of non-commissioned officers and soldiers; privates to have \$16 per month, and petty officers in proportion. Rations to remain the same. Privates, &c., serving under enlistment prior to July 22, 1861, who may re-enlist, for three years, get the bounties provided by Act of January 13, 1864. Section five establishes as a part of the War Department, during the rebellion, the Bureau of Military Justice, to which shall be returned for revision the records and proceedings of all the courts-martial, courts of inquiry, and military commissions of the armies of the United States, and in which a record shall be kept of all proceedings. The President shall appoint, by and with the advice and consent of the Senate, as the head of said bureau, a judge advocate-general, with the rank, pay, and allowances of a brigadier-general, and an assistant judge advocate-general, with the rank, pay, and allowances of a colonel of cavalry. And the said judge advocate-general and his assistant shall receive, revise, and have recorded the proceedings of the courts-martial, courts of inquiry, and military commissions of the armies of the United States, and perform such other duties as have heretofore been performed by the judge advocate-general of the armies of the United States.

CHAP. CXLIX.—*Examination of Paymasters, &c.*—A board of examiners to inquire into the fitness and ability of quartermasters, commissaries, paymasters, and their assistants. Those who fail to pass examination are to be dismissed.

CHAP. CLIII.—*Lands to Wisconsin.*—Grants land for a military wagon road from Warsaw, Marathon County, up Wisconsin river to Skonowag, thence to the State line in the direction of Ontonagon, on Lake Superior. No patent to be granted until ten miles are completed, and the whole to be done within five years.

CHAP. CLV.—*Public Printing.*—In order to furnish early copies of reports, heads of departments may have copies printed before submitting to Congress. Regulations are made for compiling, editing, distributing documents, &c.

CHAP. CLVI.—*Instruction.*—Regulates the public schools in the District of Columbia, and incorporates the commissioners, provides for raising and applying a sufficient school fund, for building school houses, for schools for colored children, &c., forming a complete code on the subject.

CHAP. CLX.—*Lands to California.*—Releases certain United States lands at Point San Quentin, California, for State prison purposes.

CHAP. CLXII.—*Claims.*—Authorizes the President to appoint a commissioner to investigate and adjust the claims of the Hudson Bay Company and the Puget's Sound Agricultural Company.

CHAP. CLXIV.—*To Prevent Smuggling.*—Stringent regulations as to the inspection, searching, landing, storing, and transmission of imported goods.

CHAP. CLXVI.—*An Act to repeal the Fugitive*

Slave Act of eighteen hundred and fifty, and all Acts and Parts of Acts for the Rendition of Fugitive Slaves.—Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That sections three and four of an act entitled "An act respecting fugitives from justice and persons escaping from the service of their masters," passed February 12, 1793, and an act entitled "An act to amend, and supplementary to, the act entitled 'An act respecting fugitives from justice, and persons escaping from the service of their masters,' passed February 12, 1793," passed September, eighteen hundred and fifty, be, and the same are hereby, repealed. [Approved, June 28, 1864.]

CHAP. CLXXII.—*Ways and Means.*—Authorizes the borrowing of \$400,000,000 on coupon bonds, running five to thirty years, interest (payable in coin) not less than six per cent. Such bonds, and the five-twentieths before authorized, may be disposed of in Europe if deemed advisable. These, and all other United States bonds, notes, and certificates of indebtedness are exempt from taxation by State or municipal authority. In lieu of so much of this loan, the Secretary may issue \$200,000,000 of treasury notes redeemable within three years, bearing interest of seven and three-tenths per cent., convertible into bonds. The Secretary of the Treasury may also cancel all Treasury notes heretofore issued, and issue these in their stead. These notes are not to be a legal tender. Bonds may be exchanged for seven and three-tenths notes. The Secretary may receive temporary loans and issue certificates of deposit therefor at six per cent., the certificates payable on ten days notice—such deposits not to exceed \$150,000,000. The same act authorizes the issue of \$50,000,000 of fractional or postage currency.

CHAP. CLXXIII.—*The Internal Revenue Act.*—[This act would fill five entire copies of our Almanac, and of course cannot be even condensed here. It can be seen at the office of every United States assessor and collector.]

CHAP. CLXXXIII.—*Pension Agents.*—Agents disbursing \$50,000 to have \$500 for clerk hire, rent, &c., per year; those disbursing \$100,000 have \$750, and for every \$50,000 additional, \$250 additional.

CHAP. CLXXXIV.—*Big Tree Grove.*—Grants to California lands in the Yo Semite Valley, and the wonderful Big Tree Grove, the salable lands to go for the preservation of the trees.

CHAP. CXCIX.—*Titles in California.*—Provides for expediting the settlement of private land claims and titles in California.

CHAP. CXCVI.—*Pay of Registers, &c.—Railroad Location Changed.*—Where lands are located by States or corporations under grants from Congress (except for agricultural colleges) the registers and receivers shall have a fee of one dollar for each 160 acres, to be paid by the corporation. The Burlington and Missouri Railroad may change its location so as to secure a better route.

CHAP. CXCVII.—*Postmasters' Salaries.*—Postmasters to be paid fixed salaries instead of fees. They are divided into five classes, based upon the fees of the several postmasters for two years past. The salaries range from \$10 for the poorest offices of the fifth class to not over \$4,000

for the best of the first class—the only exception being the New York city office, which pays \$6,000. The salaries are to be adjusted every two years. On the first and second class offices proper allowances are made for office rent and clerks. Box rents are made part of the office revenue, and no perquisites are allowed. The uniform rate of United States postage, without reference to distance, upon letters and other mailable matter addressed to, or received from, foreign countries, when forwarded from, or received in, the United States, shall be as ten cents per single rate of half an ounce or under, on letters; two cents each on newspapers; and the established domestic rates on pamphlets, periodicals, and other articles of printed matter; which postage shall be prepaid on matter sent, and collected on matter received; these rates shall not apply to letters or other matter, addressed to, or received from, any country, to and from which different rates of postage have been, or shall be, established by international postal convention. Postmasters may sell stamps in sums of not less than \$100 at 5 per cent. discount, and stamped envelopes in packages of 500 at the same rate. Minute provisions are made to punish frauds upon the mails. Letter carriers are to have salaries of not over \$800 a year. The special agent of the Department in the Pacific States is paid five dollars a day.

CHAP. CXCVIII.—*Lands to Kansas.*—Grants lands to aid in constructing a railroad and telegraph from Emporia via Council Grove to Fort Riley, to connect with the Kansas branch of the Pacific railroad. Allows the Lawrence and Neoho river road route to be changed so as to run from Lawrence to Emporia.

CHAP. CXCIX.—*International Telegraph.*—Grants right of way and alternate sections of public land for a telegraph from the overland line in California to the British boundary. Also grants the use of a steamer to lay the ocean line to Russian Asia. The government is to assist in protecting the line, and have priority of use. The line is to be open to the public, and the charge for messages shall not exceed the average usual rate for such service in Europe and America. The terms for newspaper dispatches shall be the same for all, and no contract shall be made upon terms not open to all others.

CHAP. CCI.—*Efficiency of the Navy.*—Provides for the transfer of persons in military service to the navy, especially seamen who have been drafted into the army. Enlistments in the navy are to be credited to States and towns the same as enlistments in the army, and they receive the same bounties as soldiers.

CHAP. CCV.—*Coal Lands and Town Property.*—Coal lands on the public domain, reserved as "mines," may be sold at auction at a minimum price of \$20 per acre, sale to be advertised three months; if any such land is not sold at auction, it becomes subject to private entry at the minimum price. Persons desiring to locate a town or city on public lands, must file a map thereof, divided into lots of not less than 4,200 square feet, which lots may be sold by the government at not less than \$10 each; lots not sold become subject to entry at the minimum price. Actual settlers upon such lots, however, are entitled to the provisions of the homestead law.

CHAP. CCX.—*Civil Appropriations.*—The

Coastwise Slave Trade Prohibited.—Attached to the civil appropriation bill is the following important clause: That sections eight and nine of an act entitled "An act to prohibit the importation of slaves into any port or place within the jurisdiction of the United States, from and after the first day of January, in the year of our Lord eighteen hundred and eight," which said sections undertake to regulate the coastwise slave-trade, are hereby repealed, and the coastwise slave-trade is prohibited forever.

CHAP. CCXIII.—*Lands to Oregon.*—Grants public lands to aid in the construction of a military wagon road from Eugene City by way of Middle Fork of Willamette river and the most feasible pass in the Cascade Mountains near Diamond Peak, to the eastern boundary of the State.

CHAP. CCXV.—*Punishment of Guerrillas.*—Commanding generals in the field or of departments shall have power to carry into execution all sentences against guerrilla marauders, as well as against spies, mutineers, deserters and murderers. An officer ordering a court-martial shall have power to pardon or mitigate punishments ordered by such court, except sentence of death, or of cashiering or dismissing an officer. Section three provides that a soldier in hospital, if discharged, or dying while there, shall be deemed to have been discharged or to have died in the military service, so far as it relates to bounties.

CHAP. CCXVI.—*Union Pacific Railroad.*—This is an act amending the act of 1862, incorporating the Pacific Railroad Company. This amendatory act makes the shares one hundred instead of one thousand dollars each, and one million of shares instead of one hundred thousand. To be a director, one must hold fifty shares instead of five. The books will be opened at the office of the company in New York, and in Boston, Philadelphia, Baltimore, Chicago, Cincinnati and St. Louis. Assessments shall be made on the stockholders of not less than five dollars per share, at intervals not exceeding six months, until the par value shall be paid. Capital stock shall not be increased beyond the actual cost of the road. The company is empowered to purchase and hold any lands necessary for the construction and working of the road, not exceeding one hundred feet on each side, except for turnouts, depots, &c. Provision is made for assessment and appraisal of damages to owners of lands taken by the company. The term "mineral land" in this act does not include coal and iron land; nor does any grant, by this act, defeat or impair any pre-emption, homestead, swamp-land, or other lawful claim, nor include any government reservation or mineral lands, or the improvements of any bona fide settler, and the timber necessary to support his improvements as a miner or agriculturist. The quantity of land that is exempt by the operation of this act, and the act to which this is an amendment, shall not exceed one hundred and sixty acres for each agricultural settler, and such quantity for each miner as the commissioner may establish. The time for designating the route and the completion of that part of the road required by the act is extended one year; the Central Pacific Railroad Company of California are required to complete twenty-five miles

of their road in each year thereafter, and the whole of it, to the State line, within four years. The President of the United States is authorized to appoint, for each of the roads forming the Union Pacific Railroad, three commissioners, who shall examine and report upon the divisions assigned to them, as provided in the original act. So much of the act as provides for the reservation, by the government, of a portion of the bonds to be issued, is repealed. The company are authorized to establish ferries, construct bridges over the Missouri and all other rivers, for the convenience of the road, providing proper draws on navigable streams. A large portion of the act is devoted to arranging the affairs of the Central Pacific Railroad Company, of California, in connection with the general company. After the next election of directors, the number to be elected by stockholders shall be fifteen, and the number appointed by the President shall be five; and the President shall appoint three additional directors, to serve until the next election. At least one of the government directors shall be on each of the standing committees of the company, and one on each special committee. The government directors shall make frequent reports to the Secretary of the Interior on the progress of the work. Companies are to be united, are authorized to construct any connection with the road and telegraph, for purposes of communication, which shall be opened to public use, without discrimination of persons; and the company are compelled to transmit news by messages, on pain of forfeiting one hundred dollars for each refusal, and such other damage as may be recoverable at law. Provision is made for a branch from Sioux City, to connect with the main road. The Burlington and Missouri River Railroad Company may extend its road to a point not further west than the one hundredth meridian, so as to connect with the main trunk. Provision is made for the extinction of Indian titles where necessary. There are many other minute provisions of no public importance.

CHAP. CCXVII.—*Northern Pacific Railroad and Telegraph.*—Incorporates the Northern Pacific Railroad Company, to build a railroad and telegraph, beginning at a point on Lake Superior, in Minnesota or Wisconsin, thence, on a line north of the forty-fifth degree, to some point on Puget's Sound, with a branch along the valley of the Columbia river, at or near Portland, in Oregon. This branch will leave the main line not more than three hundred miles from its western terminus. The capital stock is one million shares, of one hundred dollars each. Proper provisions, for the organization of the company and commencement of the work, are made. Right of way is given, grants of public lands are made, &c., in the usual form. The act conforms generally to that incorporating the Union Pacific Railroad Company.

CHAP. CCXX.—*Telegraphic Communication between the Atlantic and Pacific States and Idaho.*—The United States Telegraph Company is authorized to erect a line between the Missouri river and San Francisco, on such route as they may select, to connect with the lines now constructed throughout the Union. They have the use of unoccupied land, as far as it may be necessary for the right of way, and materials, and for establishing stations for repairs, &c., not ex-

ceeding at any station a quarter section of land, and such stations not to be more than one in fifteen miles, on the average. The company has no right of pre-emption. Under the direction of the President of the United States, the company is authorized to erect a line from Fort Hall, by Walla Walla and the Dalles and San Francisco, to Portland, in Oregon, and from Fort Hall to Bannock and Virginia City, in Idaho—the United States to have priority in use of the lines; for all other business the line to be opened to all persons on established terms.

CHAP. CCXXIV.—*Land Office Papers.*—All exemplifications of patents, or papers in the Land Office, required by parties interested, shall be furnished by the commissioner, at the rate of fifteen cents per hundred words, and two dollars for copies of township plates or diagrams, with an additional dollar for the commissioner's verification and Land Office seal. The money thus received to be paid into the Treasury.

CHAP. CCXXV.—*Commercial Intercourse with the Insurrectionary States.*—In addition to captured and abandoned property, to be received and disposed of, the Treasury agents shall take charge of and lease, for not exceeding one year, the abandoned lands and tenements within the districts named, and provide for the employment and general welfare of all persons within the lines of military occupation in said States, who have been heretofore held as slaves, all of whom shall become free. Property is regarded as abandoned when the lawful owner shall be voluntarily absent and engaged, in arms or otherwise, in aid of the rebellion. All money received from leases and sales shall be paid into the Treasury, and properly accounted for. There are many provisions on points of law amendatory of the previous act, concerning the mode of sale, distribution, fines, &c., but they do not seem to be of general public interest. Investigations will be made from time to time, to prevent frauds and abuses in trade; and the Secretary of the Treasury is to provide the necessary rules and regulations.

CHAP. CCXXVI.—*Claims for Bounty Lands.*—The acts of 1842, of 1835, of 1848, and of 1854, are renewed and continued. All warrants for bounty lands issued in virtue of these acts, may be located at any time, and in conformity with the general laws in force at the time of such location.

CHAP. CCXXVII.—*Amendment to the Enrolling Act.*—The President may call, at his discretion, for volunteers, for one, two or three years; and such volunteers, in case of a draft, shall be credited to their respective localities. Volunteers for one year, when mustered in, have a bounty of one hundred dollars; for two years, unless sooner discharged, of two hundred dollars; for three years, unless sooner discharged, of three hundred dollars. One third of the bounty is paid to the soldier at the time of being mustered in; one third at the expiration of one half his term; one third at the end of his term. In case of death while in service, the residue of his bounty is to be paid to his widow, or children, or mother, if she be a widow. Should the quotas not be filled within sixty days after the call for men, a draft is to be ordered. In case of a draft, the commutation heretofore allowed is repealed, and no man can escape from military

service by the payment of money. This act provides for the sending, on the part of the loyal States, of recruiting agents into any rebellious States, except Arkansas, Tennessee and Louisiana; and all volunteers got by these agents are credited to the States from which the agents come. Drafted men, when mustered in, shall be assigned to organizations of their own States, as far as practicable, and, when so assigned, may select their own regiments, in case they are not already filled. The Secretary of War shall discharge all minors under the age of eighteen, who may be drafted or in the service; and, if any officer shall muster in a person under sixteen years, without the consent of his parent or guardian, such person shall be immediately discharged, upon repaying the bounties received, and the officer shall be dismissed the service, with a forfeiture of all pay and allowances, and be subject to such further punishment as a court-martial may direct. Drafted persons, reporting at places of rendezvous, shall be allowed transportation from their places of residence. Persons discharged are allowed transportation home. All persons in the naval service, who entered the service during the rebellion, and who have not been credited to the quota of any town or State, shall be enrolled and so credited. If a drafted person shall be absent from home, on his usual business, beyond the time allowed to report, he shall not be deemed a deserter, until notice has been given him, and a reasonable time allowed. Nothing in this act shall change the provisions of existing laws relative to permitting persons liable to military service to furnish substitutes.

CHAP. CXLII.—*Branch Mint in Oregon.*—Establishes, under the usual regulations, a branch mint at Dalles City, Oregon, with the customary officers, fixing their salaries; the mint being under the direction of the Director of the Mint at Philadelphia, who is to prepare rules and regulations. This mint is a place for deposit of public moneys; and the Superintendent is an Assistant Treasurer. The mint may issue certificates of deposit for gold dust and bullion. All the laws in relation to other mints apply to this. One hundred thousand dollars is appropriated to carry this act into effect.

CHAP. CCLXV.—*Courts in the Northern District of New York.*—Sessions of the District Courts of the United States are to be held at Albany on the third Tuesday in January; at Utica on the third Tuesday in March; at Rochester on the second Tuesday in May; at Buffalo on the third Tuesday in August; at Auburn on the third Tuesday in November; and, in the discretion of the judge of such court, one term annually, at such time and place within St. Lawrence, Clinton, Jefferson, Oswego, or Franklin Counties, as he may appoint, by notice of twenty days, to be published in the State paper. The Circuit Court shall be held at Canandaigua on the third Tuesday in June, and at Albany on the second Tuesday in October. Process issued or proceedings pending in either of said courts shall not be impaired by change of time and place. Instead of the present salary of the Judge of the Northern District of New York, he is to be paid quarterly, at the rate of \$3,500 per year.

CHAP. CCLXVI.—*Encouraging Immigration.*—The President is authorized, by consent of the Senate, to appoint a Commissioner of Im-

migration, who shall be subject to the direction of the Department of State, shall hold his office for four years, and shall receive a salary of \$2,500 a year. All contracts that shall be made by emigrants to the United States in foreign countries, in conformity to regulations that may be established by the said Commissioner, whereby emigrants shall pledge the wages of their labor for a term not exceeding twelve months, to repay the expenses of their emigration, shall be held to be valid in law, and may be enforced in the courts of the United States, or of the several States and Territories; and such advances, if so stipulated in the contract, and the contract be recorded in the recorder's office in the county where the emigrant shall settle, shall operate as a lien upon any land thereafter acquired by the emigrant, whether under the homestead law when the title is consummated or on property otherwise acquired, until liquidated by the emigrant; but nothing herein contained shall be deemed to authorize any contract contravening the Constitution of the United States or creating in any way the relation of slavery or servitude. No emigrant to the United States who shall arrive after the passage of this act shall be compulsively enrolled for military service during the existing insurrection, unless such emigrant shall voluntarily renounce under oath his allegiance to the country of his birth and declare his intention to become a citizen of the United States. There shall be established in the city of New York an office to be known as the United States Emigrant Office; and there shall be appointed an officer for said city, to be known as superintendent of immigration. And such superintendent shall, under the direction of the Commissioner of Immigration, make contracts with the different railroads and transportation companies of the United States for transportation tickets, to be furnished to such immigrants, and to be paid for by them, and shall, under such rules as may be prescribed by the Commissioner of Immigration, protect such immigrants from imposition and fraud, and shall furnish them such information and facilities as will enable them to proceed in the cheapest and most expeditious manner to the place of their destination. And such superintendent of immigration shall perform such other duties as may be prescribed by the Commissioner of Immigration. No person shall be qualified to fill any office under this act who shall be directly or indirectly interested in any corporation having lands for sale to immigrants, or in the carrying or transportation of immigrants, either from foreign countries to the United States and its Territories or to any part thereof, or who shall receive any fee or reward, or the promise thereof, for any service performed or any benefit rendered to any person or persons in the line of his duty under this act. And if any officer provided for by this act shall receive from any person or company any fee or reward, or promise thereof, for any services performed or any benefit rendered to any person or persons in the line of his duty under this act, he shall, upon conviction, be fined one thousand dollars or be imprisoned, not to exceed three years, at the discretion of a court of competent jurisdiction, and forever after be ineligible to hold any office of honor, trust, or profit in the United States. Said Commissioner of Immigration shall

at the commencement of each annual meeting of Congress submit a detailed report of the foreign immigration during the preceding year, and a detailed account of all expenditures under this act.

CHAP. CCXLVII.—*Pensions*.—Biennial examinations of pensioners may be made by one surgeon only, if of the army or navy, or duly appointed by the commissioner; nor shall a certificate of two unappointed civil surgeons be accepted in any case, except on evidence that an examination by a duly appointed is impracticable. Fees paid examining surgeons shall be refunded by the Pension Agent; and declarations of pension claims shall be made before a court of record, or some officer having custody of its seal. The Commissioner of Pensions is authorized to detail clerks in his office to investigate suspected attempts at fraud on the Pension Office, and to aid in prosecuting the offenders. Persons who have lost both feet, in military service in the line of duty, shall have twenty dollars a month; and those who, under the same conditions, have lost both hands or both eyes, have a pension of twenty-five dollars a month. No pension claims now on file, unless prosecuted to a successful issue within three years, and no claim hereafter filed not brought to a successful issue within five years from the date of filing, shall be admitted, without satisfactory evidence from the War Department to establish the same. On the re-marriage of any widow receiving a pension, the pension shall terminate, and not be renewed should she again become a widow. Examining surgeons, duly appointed, may be required, from time to time, to make special examinations of pensioners, in their respective districts, and such examinations shall have precedence over those previously made, whether specially or biennially. Volunteers, not regularly enlisted, who have been disabled by wounds, are to have the benefits of the pension laws, provided their claims are presented within three years. If any person is entitled to the invalid pension, and dies while the application is pending, his widow will receive it. Enlisted soldiers, who have become disabled in the service, whether they are regularly mustered in or not, are entitled to the benefits of this act. Pension agents and attorneys, for making out the necessary papers to establish a claim to pension or bounty, shall receive the following fees: for executing a declaration, with necessary affidavits, and forwarding the same, with correspondence, ten dollars; which shall be in full for all services, and not be demanded or received until the pension is obtained. Any transgression of this provision is a high misdemeanor, punishable by fine of three hundred dollars, or imprisonment for two years, or both. Widows and children of colored soldiers, who may become entitled to pensions, may receive them, without other proof of marriage than that the parties had habitually recognized each other as man and wife, and lived together as such for a period, preceding the soldier's enlistment, of not less than two years, provided that such widows and children are free. If such parties reside in a State in which their marriage may have been legally solemnized, the usual evidence is required.

CHAP. CCXLVIII.—*Relief of Seamen*.—Provides for settling accounts of seamen and others,

not officers, of any vessel of the navy which may have been wrecked, or unheard of so long that her wreck may be presumed, or destroyed, or lost.

CHAP. CCXLIX.—*Passengers at Sea*.—Provides additional safeguards for passengers, by steam or other vessels, coastwise to and from the Pacific States.

CHAP. CCLIII.—*Quartermaster's Department*.—This act provides, at great length, for reorganizing and systematizing the Quartermaster's Department of the army.

PROCLAMATIONS.

No. 13. This proclamation, dated July 5th, 1864, suspends the writ of habeas corpus in Kentucky, and declares martial-law throughout the State; but it is not to interfere in any lawful elections, or with any constitutional proceedings of the legislature or the administration of justice in courts of law, so far as they do not affect military operations.

No. 17.—*The President's Plan for Reconstruction.*—Just before the adjournment of Congress a bill was passed to "Guarantee to certain States whose governments have been usurped or overthrown, a republican form of government." This bill provided for the appointment of a provisional governor in each State, and, as soon as military resistance had ceased and the people returned to obedience, an enrollment to be made of all white male citizens, designating those who take and those who refuse the oath of allegiance. If those who take the oath are a majority, the governor shall invite the people to elect a convention to re-establish their State government in conformity with the Constitution of the United States. The bill provided the mode of electing and assembling such conventions, and enacted the following restrictions upon their action: "That the convention shall declare, on behalf of the people of the State, their submission to the Constitution and laws of the United States, and shall adopt the following provisions, hereby prescribed by the United States in the execution of the constitutional duty to guarantee a republican form of government to every State, and incorporate them in the constitution of the State, that is to say: *First*—No person who has held or exercised any office, civil or military, except offices merely ministerial, and military offices below the grade of colonel, State or Confederate, under the usurping power, shall vote for or be a member of the legislature, or governor. *Second*—Involuntary servitude is forever prohibited, and the freedom of all persons is guaranteed in said State. *Third*—No debt, State or Confederate, created by or under the sanction of the usurping power, shall be recognized or paid by the State." Constitutions made or amended by these conventions were to be submitted to the people, "and if a majority of the votes cast shall be for the constitution and form of government, he shall certify the same, with a copy thereof, to the President of the United States, who, after obtaining the assent of Congress, shall, by proclamation, recognize the government so established, and none other, as the constitutional government of the State, and from the date of such recognition, and not before, Senators and Representatives, and electors for President and Vice-President may be elected in such State, according to the laws of the State and of the United States." In case the conventions refuse to establish governments in accordance with this act, the governors were to dissolve them and order new elections. It was also enacted that until the United States shall have recognized a republican form of State government, the provisional governor in each of said

States shall see that this act, and the laws of the United States, and the laws of the State in force when the State government was overthrown by the rebellion, are faithfully executed within the State; but no law or usage whereby any person was heretofore held in involuntary servitude shall be recognized or enforced by any court or officer in such State, and the laws for the trial and punishment of white persons shall extend to all persons, and jurors shall have the qualifications of voters under this law for delegates to the convention. That until the recognition of a State government the provisional governor shall cause to be assessed, levied, and collected, for the year 1864, and every year thereafter, the taxes provided by the laws of such State to be levied during the fiscal year preceding the overthrow of the State government. That all persons held to involuntary servitude or labor in the States aforesaid are hereby emancipated and discharged therefrom, and they and their posterity shall be forever free. And if any such persons or their posterity shall be restrained of liberty, under pretence of any claim to such service or labor, the courts of the United States shall, on habeas corpus, discharge them. That if any person declared free by this act, or any law of the United States, or any proclamation of the President, be restrained of liberty, with intent to be held in or reduced to involuntary servitude or labor, the person convicted before a court of competent jurisdiction of such act shall be punished by fine of not less than fifteen hundred dollars, and be imprisoned not less than five nor more than twenty years. "That every person who shall hereafter hold or exercise any office, civil or military, except offices merely ministerial, and military offices below the grade of colonel, in the rebel service, State or Confederate, is hereby declared not to be a citizen of the United States.

This act the President did not sign, but gave it publication by a proclamation, in which he said: "That, while I am (as I was in December last, when by proclamation I propounded a plan for restoration) unprepared by a formal approval of this bill, to be inflexibly committed to any single plan of restoration; and, while I am also unprepared to declare that the free State constitutions and governments already adopted and installed in Arkansas and Louisiana shall be set aside and held for nought, thereby repelling and discouraging the loyal citizens who have set up the same as to further effort, or to declare a constitutional competency in Congress to abolish slavery in States, but am at the same time sincerely hoping and expecting that a constitutional amendment abolishing slavery throughout the nation may be adopted, nevertheless I am fully satisfied with the system for restoration contained in the bill as one very proper plan for the loyal people of any State choosing to adopt it, and that I am, and at all times shall be, prepared to give the executive aid and assistance to any such people, so soon as the military resistance to the United States shall have been suppressed in any such State, and the people thereof shall have sufficiently returned to their obedience to the Constitution and the laws of the United States, in which cases military governors will be appointed, with directions to proceed according to the bill."

THE PLATFORMS OF 1864. UNION PLATFORM.

The National Convention which assembled at Baltimore on the 7th of June, 1864, and there nominated ABRAHAM LINCOLN for re-election as President, with ANDREW JOHNSON as Vice-President, adopted and presented to the American people the following:

Resolved, That it is the highest duty of every American citizen to maintain against all their enemies the integrity of the Union, and the paramount authority of the Constitution and laws of the United States; and that, laying aside all differences of political opinion, we pledge ourselves as Union men, animated by a common sentiment, and aiming at a common object, to do everything in our power to aid the Government in quelling by force of arms the rebellion now raging against its authority, and in bringing to the punishment due to their crimes, the rebels and traitors arrayed against it.

Resolved, That we approve the determination of the Government of the United States not to compromise with rebels, nor to offer any terms of peace except such as may be based upon an "unconditional surrender" of their hostility and a return to their just allegiance to the Constitution and laws of the United States, and that we call upon the Government to maintain this position and to prosecute the war with the utmost possible vigor to the complete suppression of the Rebellion, in full reliance upon the self-sacrifice, the patriotism, the heroic valor, and the undying devotion of the American people to their country and its free institutions.

Resolved, That, as Slavery was the cause, and now constitutes the strength, of this rebellion, and as it must be always and everywhere hostile to the principles of republican government, justice and the national safety demand its utter and complete extirpation from the soil of the republic; and that we uphold and maintain the acts and proclamations by which the Government, in its own defense, has aimed a death-blow at this gigantic evil. We are in favor, furthermore, of such an amendment to the Constitution, to be made by the people in conformity with its provisions, as shall terminate and forever prohibit the existence of Slavery within the limits of the jurisdiction of the United States.

Resolved, That the thanks of the American People are due to the soldiers and sailors of the Army and Navy, who have periled their lives in defense of their country, and in vindication of the honor of the flag; that the nation owes to them some permanent recognition of their patriotism and valor, and ample and permanent provision for those of their survivors who have received disabling and honorable wounds in the service of the country; and that the memories of those who have fallen in its defense shall be held in grateful and everlasting remembrance.

Resolved, That we approve and applaud the practical wisdom, the unselfish patriotism, and unwavering fidelity to the Constitution and the principles of American liberty, with which Abraham Lincoln has discharged, under circumstances of unparalleled difficulty, the great duties and responsibilities and of the Presidential office; that we approve and indorse, as demanded by the emergency and essential to the preservation of the nation, and as within the

Constitution, the measures and acts which he has adopted to defend the nation against its open and secret foes; that we approve especially the Proclamation of Emancipation, and the employment as Union soldiers of men heretofore held in Slavery; and that we have full confidence in his determination to carry these and all other constitutional measures essential to the salvation of the country into full and complete effect.

Resolved, That we deem it essential to the general welfare that harmony should prevail in the National councils, and we regard as worthy of public confidence and official trust those only who cordially indorse the principles proclaimed in these resolutions, and which should characterize the administration of the Government.

Resolved, That the Government owes to all men employed in its armies, without regard to distinction of color, the full protection of the laws of war; and that any violation of these laws or of the usages of civilized nations in the time of war by the Rebels now in arms, should be made the subject of full and prompt redress.

Resolved, That the foreign immigration, which in the past has added so much to the wealth and development of resources and increase of power to this nation, the asylum of the oppressed of all nations, should be fostered and encouraged by a liberal and just policy.

Resolved, That we are in favor of the speedy construction of a Railroad to the Pacific.

Resolved, That the National faith, pledged for the redemption of the Public Debt, must be kept inviolate; and that for this purpose we recommend economy and rigid responsibility in the public expenditures, and a vigorous and just system of taxation; that it is the duty of every loyal State to sustain the credit and promote the use of the National Currency.

Resolved, That we approve the position taken by the Government that the people of the United States never regarded with indifference the attempt of any European power to overthrow by force, or to supplant by fraud, the institutions of any republican government on the western continent, and that they view with extreme jealousy, as menacing to the peace and independence of this our country, the efforts of any such power to obtain new footholds for monarchical governments, sustained by a foreign military force, in near proximity to the United States.

DEMOCRATIC PLATFORM.

The Democratic National Convention which gathered at Chicago on the 29th of August, and presented the names of GEORGE B. McCLELLAN for President, and GEORGE H. PENDLETON for Vice-President, agreed on and adopted the following:

Resolved, That in the future, as in the past, we will adhere with unswerving fidelity to the Union under the Constitution, as the only solid foundation of our strength, security, and happiness as a people, and as a framework of government equally conducive to the welfare and prosperity of all the States, both Northern and Southern.

Resolved, That this Convention does explicitly declare, as the sense of the American People, that, after four years of failure to restore the Union by the experiment of war, during which, under the pretense of a military neces-

sity of a war power higher than the Constitution, the Constitution itself has been disregarded in every part, and public liberty and private right alike trodden down, and the material prosperity of the country essentially impaired, justice, humanity, liberty, and the public welfare, demand that immediate efforts be made for a cessation of hostilities, with a view to an ultimate Convention of all the States, or other peaceable means to the end that at the earliest practicable moment peace may be restored on the basis of the Federal Union of the States.

Resolved, That the direct interference of the military authority of the United States in the recent elections held in Kentucky, Maryland, Missouri and Delaware, was a shameful violation of the Constitution, and the repetition of such acts in the approaching election will be held as revolutionary, and resisted with all the means and power under our control.

Resolved, That the aim and object of the Democratic party is to preserve the Federal Union and the rights of the States unimpaired; and they hereby declare that they consider the Administrative usurpation of extraordinary and dangerous powers not granted by the Constitution, the subversion of the civil by military law in States not in insurrection, the arbitrary military arrest, imprisonment, trial and sentence of American citizens in States where civil law exists in full force, the suppression of freedom of speech and of the press, the denial of the right of asylum, the open and avowed disregard of State rights, the employment of unusual test-oaths, and the interference with and denial of the right of the people to bear arms, as calculated to prevent a restoration of the Union and the perpetuation of a government deriving its just powers from the consent of the governed.

Resolved, That the shameful disregard of the Administration to its duty in respect to our fellow-citizens who now and long have been prisoners of war in a suffering condition, deserves the severest reprobation, on the score alike of public interest and common humanity.

Resolved, That the sympathy of the Democratic party is heartily and earnestly extended to the soldiery of our army, who are and have been in the field under the flag of our country; and, in the event of our attaining power, they will receive all the care and protection, regard and kindness, that the brave soldiers of the Republic have so nobly earned.

TENNESSEE.

An election was held for President, and votes were returned from 34 counties and about 18 regiments. The aggregate was: Lincoln, army, 17,653; McClellan, 71. The Democrats made no contest. Proclamation of the election of Electors was made by the Governor.

At the date of closing our record the following was the position of affairs at the chief points of military interest: Sherman, having moved through Georgia, had arrived near the Atlantic coast, while Thomas, in force at Nashville was waiting any attack to be made by Hood. Grant, before Petersburg, still preserved his grasp of that city and Richmond, and important movements were commencing. Sheridan was holding the Shenandoah Valley with a small force, a great portion of his forces having re-enforced Grant. The blockade was vigorously maintained, and a large fleet was moving toward the Atlantic coast, to co-operate with Sherman. Gen. Banks had resumed command of the Gulf Department, and the siege of Charleston was still in progress.

In 1864, for Governor, Arthur I. Boreman had no opposition. Whole vote for President, 33,590; Lincoln's majority, 12,714. — Several counties were not returned in time for the official canvass.—In 1860, whole vote for President, as above, 40,637. Lincoln had 1,927 votes in the State, nearly all of which were cast in the counties now forming West Virginia; but the election judges generally refused to make official returns lest the people might know the facts.

CONGRESS, 1864.—Three Union members were chosen, with little opposition. They are: 1, Chester D. Hubbard; 2, George E. Latham; 3, Killian V. Whaley.

LEGISLATURE.—There is no division of parties in either House.

In 1864, whole vote for Governor (soldiers' vote estimated), 19,371; Samuel J. Crawford, "Lane" Union, over Solon O. Thatcher, "Anti-Lane" Union, 3,783. Whole vote for Congress, 18,702; Sidney Clarke, "Lane" Union, over Albert L. Lee, "Anti-Lane" Union, 1,508. Whole vote for President, 20,132; Lincoln over McClellan, 12,750. [There was an "Anti-Lane" split on the Electoral ticket, but all the Electors chosen were Union men, and the vote of the State is cast for Lincoln and Johnson. Kansas did not vote for President in 1860.]

LEGISLATURE.—Both Branches all Union.

LOUISIANA.

GOVERNOR.—On the 22d of February, a Governor and other State officers were chosen; J. Michael Hahn, Union Free State Rad. 6,536; J. Q. A. Fellows, Indep. 2,750; B. F. Flanders, Indep. 1,860. All the candidates professed to be Unionists.

NEW CONSTITUTION.—In September, a new Constitution, prohibiting slavery was adopted by yeas, 6,836; nays, 1,566; majority for, 5,270. A Legislature was elected at the same time, almost entirely Free State. Members of Congress were chosen as follows:

Union.	Indep.	
I. M. F. Bonzano	...1607; Edmund Abell	1511
II. A. P. Field	...1357; A. P. Dostie	...1023
III. W. D. Mann	...1908; [no opposition.]	
IV. T. M. Wells	...465; " "	
V. R. W. Tallaferro	...211; " "	

ELECTORS.—In December, the Legislature chose seven Electors, Unionists of course.

WHEELER & WILSON'S Highest Premium Sewing Machine, No. 625 BROADWAY, NEW YORK.

THIS MACHINE MAKES THE

and ranks highest on account of the elasticity, permanence, beauty, and general desirableness of the

stitching when done, and the wide range of its application.—*Report of American Institute, N. Y.*

PUBLIC AND PRIVATE OPINIONS.

I have great pleasure in bearing testimony to the value of your Sewing Machine. It is the realization of all our imaginings of household fairies and good hard-working brownies that ask for no payment.
Mary Howitt.

What the steam-engine proves, compared to horse-power, this beautiful machine is when set in opposition to the slow, patient progress of the ordinary needle.
Anna S. Stephens.

I find your machine invaluable. I have used it a year, and it has never been out of order. The Stitch is very durable and can be adapted to fine or coarse materials. It works with the rapidity of a dozen hands; saves much time, fatigue and expense. One of your machines is used in my father's family, another in the household of a sister, and others by various friends. The opinions of all accord with that I have just expressed.
Anna Cora Ritchie.

Of it we can speak with entire clearness and confidence, after the use of one four years or more in our family. We look upon it as one of the benefactions of the age, and one which will constitute an era in the history of woman.
Mrs. E. Oakes Smith.

Mrs. Vinton desires me to express to you her entire satisfaction with your Sewing Machine. I may add that, judging from the frequency of the rapid tick of this machine, it promotes both industry and pleasure. My purse bears witness that the Sewing Machine, among its other excellencies, is a household economy.
Rev. Dr. Francis Vinton.

Your admirable *Needle woman* is the only seamstress that defies extortionate men. They cannot cheat it, nor starve it, nor deprive it of sleep, nor tire it out, nor make its hands weary. It is a worker that is a match for the most unwearied and avaricious manufacturer. At last I am thankful that there is a Machine-Woman that cannot be oppressed nor kept in suffering.
Rev. Henry Ward Beecher.

I take pleasure in saying that the Sewing Machine purchased of you by me, has been wholly serviceable.
Rev. Samuel Osgood, D. D.

There is but one Sewing Machine, and that is Wheeler & Wilson's.
Judge Meigs, of the American Institute.

The most practical invention adapted to common use.
Com. Mechanics' Institute, Baltimore.

It will work as great a change in the family, as railways have in States.

ARTICLES OF EVERY-DAY USE.

B. T. BABBITT is the manufacturer of the following celebrated articles, all of which bear the maker's name:

"Medicinal," "Sheaf Wheat," and "Unlon," Saleratus; Soap Powder, Yeast Powder, Medicinal Yeast, Concentrated Potash, "Extra Starch," Cream Tartar, Sal Soda, Baking Soda, Arrow Root, &c., &c.

MAKE YOUR OWN SOAP with B. T. BABBITT'S

PURE CONCENTRATED POTASH, warranted double the strength of common Potash, and superior to any other saponifier or ley in market. Put up in cans of one pound, two pounds, three pounds, six pounds, and twelve pounds, with full directions in English and German, for making Hard and Soft Soap. One pound will make fifteen gallons of Soft Soap. No lime is required. Consumers will find this the cheapest Potash in market.

B. T. BABBITT'S MEDICINAL SALERATUS.—A perfectly pure and wholesome article, free from all deleterious matter; so prepared that, as the circular accompanying the Saleratus will show, nothing remains in the bread when baked but common salt, water, and flour. Put up neatly in papers, one pound, half pound, and quarter pound.

B. T. BABBITT'S CONCENTRATED SOFT SOAP.—One box, costing \$2.00, will make forty gallons of handsome Soft Soap, by simply adding boiling water.

B. T. BABBITT'S LABOR-SAVING SOAP.—B. T. BABBITT has for a long time been experimenting, and has now produced an article of Soap that is composed of the best washing material, and at the same time will not rot or injure the clothes in the slightest possible manner. He stamps his name on each bar, and guarantees that the Soap will not injure the most delicate fabric, while it will be found to be the most pleasant washing soap ever offered in market. It is made from CLEAN and PURE materials, contains no adulteration of any kind, and is especially adapted for woolens, which will not shrink after being washed with this Soap. Ask for B. T. BABBITT'S SOAP, and take no other. Each bar is wrapped in a circular containing full directions for use, printed in English and German. One pound of this Soap is equal to three pounds of ordinary family soap. Directions sent in each box for making one pound of the above Soap into three gallons of handsome Soft Soap. It will remove paint, grease, tar, and stains of all kinds. It will not injure the fabric; on the contrary, it preserves it. It will wash in hard or salt water. But little labor is required where this Soap is used. Machinists and printers will find this Soap superior to anything in market.

DR. TALBOT'S CONCENTRATED

MEDICAL PINEAPPLE CIDER

IS A PREVENTIVE OF SICKNESS.

The experience that Dr. Talbot has had for the last twenty-five years, convinces him that it is time the public had an article offered that will prevent sickness. The article offered is Dr. Talbot's Medicated Pineapple Cider, designed for all classes, *old and young*.

It is not new to the Doctor, but it is entirely new to the public. One quart bottle will last a well person a year. This is rather a new mode of doctoring; nevertheless it will *save millions* from being sick. Is it not better to pay three dollars a year to keep from being sick, than to pay ten or twenty dollars in doctor's bills, and as much more for the loss of time and inconvenience of being sick?

To prevent sickness, use as follows: Add one teaspoonful of Medicated Pineapple Cider to a tumbler of cold water, and drink the first thing after you rise in the morning, and the same before you retire at night.

It will increase the strength and give *vigor and action* to the system.

A celebrated New York merchant who has made a thorough trial of the Pineapple Cider, assures Dr. Talbot that he has gained ten pounds of flesh in one month, at the first trial. He continues its use as above directed, and finds it very beneficial; says it has proved an entire *preventive to sickness* in his case. Also another well known gentleman in New York has used the Medicated Cider constantly for ten years, and has not been sick one day during that time.

THIS WONDERFUL PREPARATION

Will increase the strength, give vigor and action to the system, and regulate digestion. When taken internally, for pains of all kinds—Bilious Colic, Diarrhœa, Diseases of the Throat, Pains in the Chest, Hoarseness, Coughs, Neuralgia, Rheumatic Pains, Dyspepsia, Acidity of the Stomach, etc., etc., its soothing and quieting effect on the system is most astonishing.

Dr. Wilcox, an eminent physician, employed it with great success in treating Fevers, Dyspepsia, Nervous Affections, Loss of Appetite, Weakness, Palpitation of the Heart, Chronic Diarrhœa, Colic Dysentery, and Diseases of the Stomach and Bowels. It is also particularly recommended by physicians to delicate females, and as an excellent remedy for Enfeebled Digestion, Want of Appetite, Scrofula, Nephritic Affections, Rheumatism, etc., etc. It never fails to relieve Nervous Tremor, Wakefulness, Disturbed Sleep, etc.

American Ladies have used this article with great success to heighten their color and beauty.

It imparts cheerfulness to the disposition, and **Brilliancy to the Complexion.**

To travelers, especially, it is of inestimable value, and should be provided as a medicine for every journey in which the water is likely to vary in quality and tendency.

Persons residing in any part of the country may adopt it with the utmost confidence as a timely, efficacious restorative.

TO CURE CATARRH.—What is the Catarrh? It is a defluxion or increased secretion of mucus from the membranes of the nose, fauces and bronchiæ, with fever, sneezing, cough, thirst, lassitude, and loss of appetite, and sometimes an entire loss of taste, called also a cold. An Epidemic Catarrh is called Influenza, a chronic affection of the mucus membrane of the nostrils and fauces. To cure above, add to half a pint of cold water ten drops of **Dr. T. B. Talbot's Medicated Pineapple Cider**; take some of the mixture in your hand and snuff it up your nose, until it comes out of your mouth; be thorough with the snuffing, in order to reach the affected parts. It may take six months to cure, but a decided improvement will be observed in thirty days.

PRICES :

\$3 per Bottle (full quart). \$2 per Bottle (full pints). \$1 per Bottle (full half pints).

One quart bottle, two pint bottles, or four half pint bottles sent free by express on receipt of Price. **For Sale Everywhere.**

B. T. BABBITT, Sole Agent,

64, 65, 66, 67, 68, 70, 72 & 74 WASHINGTON ST., New York.

TO CURE COLDS.—A sure cure for a bad cold is four table-spoonful of **Dr. T. B. Talbot's Medicated Pineapple Cider** when you retire. A cold is the foundation of most diseases. Who would not readily buy a whole bottle of Pineapple Cider if they were sure it would cure? Any one who buys a bottle of this Pineapple Cider, and is not satisfied with it, can return the same and have the money refunded.

TO CURE FEVERS OF ANY KIND.—Add ten drops of **Dr. T. B. Talbot's Medicated Pineapple Cider** to a quart of cold water, iced if handy; saturate a cloth with the preparation, and apply to the affected parts; also add five drops to a tumbler of cold water, and drink every ten minutes. The fever will soon be removed.

TO CURE SORE THROAT.—Add ten drops of **Dr. T. B. Talbot's Medicated Pineapple Cider** to a pint of cold water, and use as a gargle; put a wet cloth around your neck when you retire.

TO CURE RHEUMATISM.—Add to one-half pint of hot water a wine-glass full of **Dr. T. B. Talbot's Medicated Pineapple Cider**, and take every fifteen minutes. Apply hot, wet flannels to the parts affected, and a sure cure will follow in a short time.

AMERICAN LADIES, to heighten their color and beauty, should take one table-spoonful of **Dr. T. B. Talbot's Medicated Pineapple Cider** at dinner, also when they retire at night, and when they rise in the morning.

TO CURE DYSPEPSIA.—Add two spoonful of **Dr. T. B. Talbot's Medicated Pineapple Cider** to a wine-glass full of water, and take before or while eating.

TO CURE COUGHS.—Add one table-spoonful of **Dr. T. B. Talbot's Medicated Pineapple Cider** to a half-pint of water; take once in two hours.

B. T. BABBITT'S

72

MEDICINAL YEAST,

THE ORIGINAL

Nos. 64, 65, 66, 67, 68, 70, 72 and 74

WASHINGTON STREET, N. Y.

DIRECTIONS FOR USE.

To each quart of flour, add two teaspoonsful of the YEAST and the usual quantity of salt; mix them thoroughly together while dry, then add cold water or sweet milk; make the dough as thin as can be moulded into a Biscuit; the thinner the dough is the whiter and lighter they will be. No shortening is required for Biscuit when milk is used, and very little when water is used. Bake at once.

Buckwheat Cakes should have three teaspoonsful mixed with the flour while dry; and mix no more at a time than is wanted. Use it for Pot-pies, Pie-crust, Plum Puddings, Johnny Cakes, Indian Cakes, Cornmeal Cakes, Corn Bread, Batter Cakes, and Fried Cakes or Doughnuts, all kinds of Sweet Cakes, and all kinds of pastry.

OBSERVATIONS.

Bread made in this manner contains nothing but Flour, Common Salt, and Water. It has an agreeable, natural taste: keeps much longer than common bread; is more digestible, and much less disposed to turn acid. Common bread, like everything that has been fermented, ferments easily again, to the great discomfort of many stomachs; and not only so, but acting as a ferment, it communicates a similar action to all food in contact with it.

The Bread being free from all yeastly particles, is more digestible, and not so likely to create flatulence or turn acid on weak stomachs, as fermented bread is apt to do. And when of the finest quality, it is beneficial to those who suffer from headache, acidity, flatulence, eructations, a sense of sinking at the pit of the stomach, distention, or pains after meals, and to all who are subject to gout or gravel. It is also useful in many affections of the skin.

These remarks apply to both varieties of the Bread, but especially to the Brown, which is further invaluable to all who are liable to constipation from torpidity of the colon, or large intestine, the common infirmity of the sedentary, and of those who have been accustomed to oatmeal diet in their youth.

But the advantages of the process are not limited to matters relating to health. It is valuable, because bread can be prepared by it in the short space of half an hour, thus saving much time and labor, and emancipating journeyman bakers from the slavery of night-work. It is valuable also, because the materials are not perishable, and may be rendered available in places and at times when yeast or other ferment is not within reach, as at sea, for example, or in country retirements; and it is still more valuable as regards economy. The cost of the chemicals is counterbalanced by that of the yeast, salt, and alum otherwise employed; but were it not so, they would form an altogether unimportant item in the price of bread; while by their use a saving is effected in the flour of not less than twenty-three per cent. In the common process, much of the saccharine part of the flour is lost by being converted into carbonic acid and spirit—and thus waste is incurred solely for the purpose of getting carbonic acid to raise the dough. By the new method waste is avoided, and the gas obtained in a manner equally beautiful and efficacious. Another striking instance of the successful application of Chemical Philosophy to the common arts of life. Fermentation (as has been before stated) destroys part of the flour or meal. We find in consequence that 280 pounds, which makes 360 pounds of bread by fermentation, gives by the new process 380 pounds, or 102 loaves.
